Board of Selectmen

Mr. William S. Abbott, chairman; Mr. Arthur D. Saul, Jr.; Vice chairman; A. D. Saul, Jr.; H. P. McCabe; W. S. Abbott; R. A. Nigro; J. W. Bullock

At the Annual Town Election held in March of 1972, Mr. John W. Bullock was re-elected to a successive three year term and Mr. Harry P. McCabe was elected to a three year term replacing Mr. Joseph P. Greeley, who did not seek re-election after more than twenty years of service to the Town.

At the same Election, Selectman John J. Bilafer was elected Town Treasurer and as a result of being elected, he submitted his resignation as a Selectman thereby creating a vacancy on the Board. The remaining members of the Board shortly thereafter met for the purpose of organizing, whereat Mr. William S. Abbott was elected Chairman and Mr. Arthur D. Saul, Jr. was elected Vice Chairman.

In accordance with the Town Manager Act, the Town Moderator was notified to meet with the Board to fill the vacancy created by the resignation of Mr. Bilafer. At a meeting called for that purpose, after a lengthy discussion, the Moderator, along with the four members of the Board, selected Mr. Ronald A. Nigro to fill the vacancy.

This was the first time in the history of the Town Manager Act, that such a procedure was required. Without the special provisions of the Act, it would have been necessary to hold a Special Elelction at considerable expense to the taxpayers and further, the Board would not have had full membership for a considerable period of time which was a matter of concern which resulted in the Board proceeding expeditiously to fill the vacancy.

This report is not intended to give a comprehensive picture of each detailed activity that we have been involved in, but its intent is to give a general overview on key matters, individuals and officials, both state and local, that we were involved with this year.

One of the major breakthroughs at the national level was the passage of the Revenue Sharing Act which provides funds to local cities and towns which can be used to reduce the town's tax rate.

The Board, in conjuction with other communities across the country along with the Town Manager worked actively at the state and national level with our Senators and Congressman to impress the need and necessity for relief for the local property owners.

The Board is most pleased to report that the Town of Arlington will receive approximately 1.9 million dollars which is retroactive to January 1, 1972, and is for a period ending in 1974. The Selectman feel this is one major step in the right direction which was a great victory for municipalities who had worked for the passage of Revenue Sharing.

At the Annual Town Election, the voters overwhelmingly voted in favor of having Clubs and Veterans Organizations licensed to allow the sale of all alcoholic beverages. This resulted in the Board establishing the Town's Rules and Regulations for the sale of alcoholic beverages, dated May 15, 1972. Under the General Laws of the Commonwealth, the Board of Selectmen acquired the authority, by the Town's favorable vote, to grant licenses to qualified organizations.

Several licenses were issued and it should be noted that no violations of the Board's rules were found to exist during the year.

Transportation continues to be an activity that has warranted constant review and action. At the local level, the Selectmen's Advisory Committee on Transportation held a series of meetings with residents to review the need for revisions in town bus service. As a result of these meetings, several

recommendations were made which the Board adopted and currently the Massachusetts Bay Transportation Authority (M.B.T.A.) plans to implement on a trial basis. On the regional level the Boston Transportation Planning Review (B.T.P.R.) enters its final stage of study on the need for additional rapid transit service in the various transportation corridors. In the Northwest Service Corridor, of which Arlington is a member, a proposed plan of study was scheduled on the Red Line Extension which is proposed to be a rapid transit extension of the Harvard line to Alewife Brook, part of the overall B.T.P.R. Review. During the year the Board held several meetings with the staff of the B.T.P.R. and also met with Secretary of Transportation Alan Altshuler. After considerable effort we were able to alter the proposed plan of study to include a study of the rapid transit extension to Route 128 with particular emphasis on a major study of the extension to Arlington Heights. This action is most significant because it is the Board's feeling that if the rapid transit extension stops at Alewife Brook it would generate major problems to the town, such as traffic, overcrowding of vehicles on side streets, ecological problems in addition to being basically of little value to the economic future of the business community. Although at this time the matter is only in the study phase, it is a generally known fact that for any portion of the extension to be built it must have the benefit of a comprehensive review by the B.T.P.R. task force. The Selectmen feel that the town will now have the first basic requirement fulfilled which allows us to be considered and qualified for future extension of rapid transit. The Town Manager has been extremely diligent in keeping the Board advised on the progress of the B.T.P.R. study and this has provided the town with many opportunities to be most effective in changing the staff policy on the study in the Northwest Corridor. This matter will continue to be a high priority item because of the far reaching effects it could have on the overall quality of life in the town.

In keeping with past practices of meeting with various State Officials, the Board met with Commissioner Arthur Brownell of the Department of Natural Resources to discuss the problems related to Spy Pond. This meeting helped to improve communication between the Town and his Department and resulted in a mutually funded study of Spy Pond. The study, a biological and management use study of the pond and land adjacent to it, is under review. When the study is completed it will help to guide the Town in the best possible direction for maximum future protection and use of the pond.

The Selectmen also met with the County Commissioners and County Treasurer at the Town Hall whereat the county budget and other related county items were discussed. This meeting was heavily attended by residents of the Town and it proved to be of value because of the discussion related to many of the county and town matters that were reviewed.

A meeting was held with Commissioner Bruce Campbell of the Department of Public Works to

discuss the need for improvements of the hazardous safety conditions on Route 2, between Alewife Brook Parkway and Lake Street. The meeting was prompted because of a fatal pedestrian accident on Route 2 in the interest of having the State take immediate steps to construct a pedestrian overpass and to improve lighting conditions and other matters related to the aforementioned area.

As a result of the meeting plans are now underway on the part of the State to upgrade all lighting by the Spring of 1973, also to have a pedestrian overpass constructed.

The Department of Public Works also, as a result of the meeting, constructed a chain link fence down the median strip of the road, installed speed regulation signs in the west bound lane and flashing yellow caution beacons in the east bound lane.

Senator Pelligrini and Representatives Campobasso, Cusack Dever and Picket worked very closely with the Board and their efforts were most beneficial in expediting response.

In October of this year a Special Town Meeting was held. One of the Articles in the Warrant was a proposal by one hundred (100) registered voters to consider making a study of the Great Meadows to determine the feasibility of constructing a golf course on this property which is owned by the Town of Arlington but is located in the Town of Lexington.

The Article was defeated, but because of the large interest in determining what recreation Great Meadows should be used for, a meeting was held with the Lexington Board of Selectmen in Lexington, members of the six member joint Great Meadows Arlington-Lexington Committee also attended.

At the meeting it was agreed by both Towns that the Great Meadows Committee should be expanded by the addition of two members from each community and they should be charged with the responsibility of making recommendations on the best recreational use of this large natural area.

We would like to thank our legislators, Senator Philibert L. Pellegrini, Representatives Eleanor M. Campobasso, John F. Cusack, Edward J. Dever and William A. Pickett for their oustanding cooperation in working with the Town in the best interest of the taxpayers. They have always made themselves available to the Board, sometimes on very short notice. We are most appreciative of their concern and response to our requests.

In addition to meeting with many State Officials we also held many meetings with our local Boards, Commissions and Department Heads.

The Redevelopment Board, on many occasions met with us to discuss zoning matters, future land use

policy and development projects. This Board under the chairmanship of George J. Remmert, was one of the busiest part-time Boards in the town. On many occasions throughout the year the members of this Board worked several nights each week and have devoted thousands of hours of additional time reviewing material prior to meetings.

We wish to thank these dedicated men who have worked extremely long hours to provide the town with the proper direction related to best land utilization.

Community Antenna Television (C.A.T.V.) continued to be a matter that we received various requests for licenses to install a C.A.T.V. system in town. As a result of action on the state level the Board voted to declare a moratorium on the issuing of anv licenses for a period of six months ending March 20, 1973. In a separate action related to C.A.T.V., a Selectmen's Advisory Committee was appointed to look into the feasibility of establishing a community owned or operated C.A.T.V. system. This committee has been in existence for less than four months and has not had an opportunity to make a significant study of the subject but they have been most active is establishing a course of action.

A Middlesex County Advisory Committee was appointed by the Board. They have been researching the

county operation and it is felt this committee will be of great assistance to the Board.

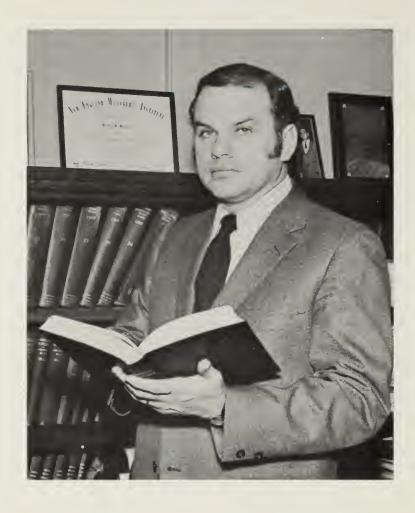

In conclusion, we wish to extend our appreciation to the employees of the town who carry out the day to day operations of the many departments in a most efficient manner. We also wish to thank our Executive Secretary and office staff for their loyal and valuable assistance.

We regard ourselves as fortunate in having so many dedicated individuals who serve on various Boards, Commissions and Advisory Committees spending many thousands of hours in the course of their duty always working in the direction to make the town a better place to work and live in.

Finally, to the Town Manager, we extend our gratitude for a job well done as we complete the year 1972; your recommendations on many matters we acted throughout the year have proven to be wise and prudent and always in the best interest of the community.

William S. Abbott, Chairman Arthur D. Saul Jr., Vice Chairman John W. Bullock Harry P. McCabe Ronald A. Nigro

Town Manager

Town Manager Donald R. Marquis

The year 1972 witnessed many new developments both within the structure of town govenment in Arlington and at other levels of government. While there were no major reorganizations within the town structure there was considerable activity at both the county and the state levels to reorganize and revitalize those units of government. Hopefully their efforts will bear fruit and will lead to a substantial reduction in the burden of financing these services, a burden which is now borne by the cities and towns. The revenue picture also brightened considerably during 1972 with the passage of the general federal revenue sharing legislation, and with the receipt of revenues from the state lottery. Based on the first revenue sharing check issued this fall by the United States Treasury Department we can anticipate receiving approximately \$800,000 per year from the federal government for general revenue sharing. Next year Congress and the President will be considering proposals for special revenue sharing programs in the areas of law enforcement, manpower development, urban community development and education. If these programs are approved we will then be in a position to receive additional funding from the federal government.

The most encouraging aspect of the revenue sharing program is that in contrast to other federal funding programs it recognizes the responsibility of local government to formulate its plan and program and to set its own priorities. For the present, however, there continues to be a wide variety of federal funding programs in addition to the revenue sharing programs and during 1972 the town was actively in pursuit of funds from many of these programs. For the first time we received a \$50,000 grant for planning

and management assistance under the federal 701 program. This money has been used to assist the redevelopment board, the department of planning and community development and this office in efforts to develop comprehensive planning and management programs for the town. The town also received a \$75,000 grant under the state urban renewal program to investigate the possibilities for redevelopment of the old sanitary landfill site off Summer Street.

In addition, we began negotiations in 1972 with the state public access board for the development of a boating ramp and fishing pier and construction of a parking lot and with the federal bureau of outdoor recreation for a variety of recreational development projects. Finally, we applied for and received a grant for \$5,000 from the Ford Foundation for an Open Space Study. This money matched a \$5,000 appropriation made by the 1972 annual town meeting. While the concept of revenue sharing is most appealing to the town we will continue to explore all programs of federal, state and private financing in order to supplement our local revenues.

Several important developments occurred within the town during 1972 and we will touch on them in this report. For more specific details you may wish to consult the reports for the individual departments.

FIRE DEPARTMENT

The new Fire Department radio system was installed at headquarters and radio equipment was provided for all the apparatus. This new radio system also allowed the town to institute a comprehensive fire inspection program in our business and commercial buildings.

POLICE DEPARTMENT

Utilizing the federal law enforcement assistance administration (LEAA) technical assistance program, we undertook a study of our police department with a particular emphasis on the patrol function and as a result of this study we recommended several changes within our police department to take effect in 1973.

PUBLIC WORKS

As a result of the Hatch Act and the Open Space Report the town stopped using the Meadow Brook Park site for dumping of its street excavations and street sweepings. These materials must now be taken to the Grove Street transfer station and hauled out of town along with our regular rubbish. The volumes and pressures study of our water system authorized by the 1972 town meeting was undertaken and completed during the spring and as a result we were able to make many corrections and repairs to our water system during the summer months.

PROPERTIES AND NATURAL RESOURCES

The program to install fire detection equipment in all of our public buildings continued in 1972. It is expected that this program will be completed during 1973. A new program of systematic maintenance for school plant was begun this summer with the renovation of the Hardy School, Wiring and electrical services were replaced, the interior and exterior was painted and many other major improvements were made. During the next few years one or two school buildings per year will be selected for major renovation work. In this way we hope to provide proper maintenance of our school plant at the least possible cost. The use of lexan windows in our school buildings as a deterent to vandalism has proved most successful. This year we replaced the frames and windows on the playground side of the Locke School. While the initial installation cost is high, the savings in window replacement are considerable. The experiment with contractual cleaning of our public buildings has been most satisfactory in terms of the quality of work and the cost. At present part of the High School, the demountable classrooms, the school administration building, the town hall annex, the Robbins House and the Jarvis House are cleaned by contractual cleaners. The cleaning of additional buildings will be contracted out whenver it is feasible to do so.

HUMAN RESOURCES

A drop-in center for the elderly was opened this summer at the newly renovated Jarvis House under the auspices of the Council on Aging. Long overdue this center has already done much to meet the needs of our elderly residents. The recreation program was considerably expanded this year with the addition of thriteen new programs ranging from skating lessons to chess to ballroom dancing to coffee hours and movies for the elderly. These new programs reflect the diverse and ever increasing demand for recreational services. In order to meet these demands considerable time and effort was spent during 1972 in attempting to develop a comprehensive open space and recreational program for the town.

OPEN SPACE AND RECREATION

The preliminary report of the Open Space Committee was released this fall and the Open Space Committee is now doing further work in order to develop an open space acquisition and development program. In October the Town Manager appointed a recreational facilities committee to examine the existing playground and recreational facilities, and to recommend a program of renovation and upgrading for these facilities. This committee is scheduled to report in January. During 1973 we expect to take the reports of these two committees and develop a comprehensive plan for open space and recreation and a capital budget to implement this plan.

COLLECTIVE BARGAINING

The 1972 annual town meeting granted town employees a 4.5 percent general salary increase effective April 1, 1972. During the summer Local 1297, international Association of Fire Fighters, AFL-CIO was elected as bargaining agent for the fire department employees. To date, however, they have not entered into collective bargaining with the town. This year the police patrolmen also organized and elected the Arlington Police Patrolmen's Betterment Association as their bargaining agent. Collective bargaining negotiations with this association began this fall. The police officers also formed a separate association although they have not yet been recognized for collective bargaining purposes. This proliferation of employee unions and associations will greatly change the nature of establishing wages, fringe benefits and working conditions for town employees particularly if employees succeed in getting the state to pass legislation imposing binding arbitration on the cities and towns.

TRANSPORTATION

In the area of transportation the Governor released his recommendations on transportation within the Boston Metropolitan region. Among these recommendations are that the construction of Route two be terminated at Alewife Brook Parkway and that the red line subway be extended from Harvard Square to Alewife or to Arlington Heights. Fortunately the town will be in a good position to follow these developments since the Manager was appointed to the MBTA budget committee and to the Joint Regional Transportation Committee. In addition he serves on the National League of Cities Steering Committee on Transportation Committee Co

sportation which attempts to influence transportation policy at the national level. The transportation decisions that are made in the next few years will effect Arlington for decades to come. It is imperative that the town understand the impact of these decisions and that the town be represented in the decision making process.

OTHER DEVELOPMENTS

Your Town Manager was active as President of the Massachusetts League of Cities and Towns in representing the cities and towns before the legislature and the Governor. With the increased activity of lobbyists, pressure groups and unions on Beacon Hill it is imperative that cities and towns make their views known.

Summary

In the areas of school facilities, transportation, open space and recreation, governmental reorganization, and municipal finance 1972 was an important year for Arlington. Decisions were made that will influence the development of the town for years to come. It has been a pleasure as Town Manager to work with the Board of Selectmen, the Town Meeting, the town boards and commissions and the many citizens who gave of their time and talent in making these decisions and to work with the town employees in implementing those decisions and in maintaining the high level of municipal services.

Donald R. Marquis Town Manager

GENERAL GOVERNMENT

Town Clerk

Town Clerk Mary A. Farrington

The following annual report of the Town Clerk for the year ending December 29, 1972, is herewith submitted, in accordance with Section 3 of Article 3 of the Town's By-Laws.

The total amount collected by the department during the year and deposited with the Town Treasurer was \$24,706.35, an increase of \$1,211.30 over the previous year. Included in the total amount was \$6,431.85 for conservation licenses and \$8,721.50 for dog licenses.

The breakdown of fees collected is as follows:

Marriage Intentions	\$1,302.48
Filing Fees (Financing Statements, etc.)	3,581.00

Registrars of Voters

The Registrars of Voters herewith submit their annual report for the year ending December 31, 1972, in accordance with Section 3 of Article 3 of the Town By-Laws.

Temporary Assistant Registrars designated by our Board made a complete canvass of the Town for the purpose of taking the annual listing of persons seventeen years of age and older residing in the Town of Arlington on January 1, 1972, and in conjunction therewith a listing of owners or keepers of dogs, both as required under the law.

Our board certified the signatures of 18,275 voters appearing in nomination papers filed by or in behalf of candidates seeking municipal, county, and state offices, petitions for articles to be inserted in the Warrant for the Annual Town Meeting, recount petitions, initiative petitions and applications for absentee ballots.

Thirty-four evening sessions for the registrations of voters were held during the year at various public buildings throughout the town. At these sessions 3,153 persons were qualified to vote in primaries and elections. Throughout the year daily sessions for registration of voters were held during regular business hours in the office of the Town Clerk.

In accordance with Chapter 51, Section 1A, 30 persons were determined by our Board to be qualified to vote for electors of president and vice-president only at the State Election.

Upon completion of the work of revising the two voting lists, one for State Elections and the other for Town Elections, in accordance with the true list information that had been presented, notices were sent by first-class mail as required by law to persons whose names were to be removed from the voting list for the reason that they had not been reported as residing in Arlington on January 1, 1972. Those who proved residence were reinstated.

As a result of the notices mailed, names of voters who had moved out of Arlington were removed from the voting list. In addition, names were removed because of death, change of name by marriage or court decree, failure to comply with the notice and other changes in voting status.

The total number of registered voters upon completion of the revision of the voting list was 28,944.

At the close of registration for the biennial State Election, there was a total of 32,072 registered voters, including 17,114 enrolled Democrats and 4,814 enrolled Republicans with 10,144 unenrolled voters. Following is a breakdown by precincts.

PREC.	TOTAL NUMBER VOTERS	TOTAL DEMOCRATS	TOTAL REPUBLICANS	TOTAL UNENROLLED VOTERS
1 2 3 4 5 6 7 8 9A 9B 10A 10B 11A 11B 12A 12B 13 14A 14B	1703 2017 1253 2110 2765 1567 2060 1903 1187 1238 801 1015 2147 1800 1432 746 2681 1569 2078	947 1231 668 1164 1790 693 1232 804 622 636 394 495 1069 1075 698 330 1370 810 1086	196 215 221 261 190 351 238 477 196 206 139 236 279 219 244 158 380 265 343	560 571 364 685 785 523 590 622 369 396 268 284 799 506 490 258 931 494 649
Total	32,072	17,114	4,814	10,144

For the four elections held in 1972, the Registrars were in session throughout the entire period during which the polls were opened, after which they assisted in the tabulation of the returns of ballots cast at such elections as follows:

Town Elections	POLLS OPEN COMPLETED
(March 4, 1972)	8 A.M. to 8 P.M. 3:00 A.M. March 5
Presidential Primary (April 25, 1972)	7 A.M. to 8 P.M. 7:30 P.M. April 26
•	7 A.M. to 8 P.M. 12:30 A.M. Sept. 20
State Election (November 7, 1972)	7 A.M. to 8 P.M. 6:00 A.M. Nov. 8

A recount of the ballots cast for the office of Democratic nomination of a candidate for County Treasurer for Middlesex County was held on Friday evening, September 29, 1972 at 6:30 p.m. The details thereof are included in the "Records of Elections and Town Meetings" which appear elsewhere in the Town Report.

Mr. Alfred M. DeVito was reappointed as a Registrar of Voters for three years by the Board of Selectmen.

During the year the information contained in approximately 35,000 listing slips of residents of the town on January first was transferred to their individual master cards, which provide for a complete official record of residence for all persons seventeen

years of age or older from the time they first became residents of the Town of Arlington.

From the information, certificates of residence are issued daily to establish eligibility for attendance at State schools and colleges, receipt of old age assistance, veterans' services, social security, employment in state or federal civil service and for many other purposes.

Registered Voters' Certificates are also issued from our records for use as identification and proof of citizenship. Certificates of political party enrollments also were issued to candidates for office at the State Primary.

Pursuant to the petitions filed with the Town Clerk in accordance with the provisions of law, a recount of the ballots cast in the Town of Atlington for the Democratic nomination of candidates for the office of County Treasurer for Middlesex County in Precincts 2 to 14, was conducted by the Registrars of Votets, assisted by duly-appointed clerks in the Town Hall on Friday evening, September 29, 1972, at 6:30 o'clock P. M. RECORD OF RECOUNT - SEPTEMBER 29, 1972

The results of the recount, which becomes the official record, were as follows:

COUNTY - MIDDLESEX COUNTY TREASURER

Personnel Board

The membership of the Board changed with the appointments of Stanford G. McEwen to succeed Thomas P McGurl, an employee representative, and Emelio J. Rosselli for one year because of the resignation of Francis A. Proulx, an employee representative. Richard S. Murphy's term will expire on March 12, 1973. The appointments of Charles L. Doherty, Jr. and William F. Hayward will expire on March 12, 1974. Richard S. Murphy was elected Chairman for the coming year.

The Board has held nine meetings during the year and considered sixteen requests from individuals, committees and department heads relative to salaries and fringe benefits. After careful consideration, we are recommending three changes at the Annual Town Meeting. At the request of the Town Manager, the Personnel Director has attended several collective bargaining sessions with representatives of Local 680, AFL-CIO.

In addition to the meetings, we have had frequent contact with the Personnel Director on various personnel matters that have arisen between meetings. The Personnel Director has had numerous conferences with the Town Manager, department heads, employees and the Division of Civil Service on matters pertaining to Civil Service procedure, the operation of the Classificiation and Compensation Plans and the Leave Regulations. The following are

some of the personnel procedures handled by the department this year: Civil Service Requisitions 135 **Emergency Appointments** 67 Appointment, temporary, provisional and renewals 250 Permanent appointments 20 Promotions - Permanent and temporary 34 Termination of temporary employment 255 34 Termination of permanent employment 79 Loyalty Oaths Group Insurance 31

There are at present 589 full-time, 37 permanent part-time, 17 provisional and temporary full-time, 36 temporary part-time, and 39 seasonal part-time classified employees in the service of the Town. The peak employment period was during the summer months with a total of 815. These figures do not include personnel appointed by the School Committee.

The Board appreciates the cooperation and assistance given by the Board of Selectmen, Town Manager, Finance Committee, officials, boards, Town Counsel and employees in our effort to administer the duties and responsibilities involved. We also wish to express our sincere appreciation for the capable services of our Personnel Director, Lee Morris, who also serves as the Board's secretary and for the clerical work performed by Agnes G. Taylor.

Town Counsel

I herewith submit my report for the year 1972 in accordance with Section 3 of Article 3 of the By-Laws of the Town of Arlington.

There have been twenty-four accident cases against the Town of Arlington this year. Five claims have been settled as authorized by the Town Manager and the Board of Selectmen. Five have brought suit and fourteen are in abeyance. Of the previous years' claims and suits, eleven were abandoned without suit, two were settled as authorized by the Town Manager and the Board of Selectmen and forty-two are still pending. There were no verdicts against the Town.

Two petitions for land damages pending in the Superior Court — one arising from the taking of land on Thorndike and Magnolia Streets for playground and recreation purposes and the other as a result of widening of Summer Street — were disposed of by compromise settlements authorized by the Town Manager and the Board of Selectmen. One additional claim for damages arising out of eminent domain takings was also settled with the approval of the Town Manager and the Board of Selectmen.

There were forty-four cases pending against the Town before the Massachusetts Appellate Tax Board, all petitioning for abatements on real estate taxes. Thirteen cases before the Appellate Tax Board were

withdrawn and settled at or before the time of trial. The other thirty-one cases are pending.

Two Bills in Equity appealing from decisions of the Zoning Board of Appeals were heard in the Superior Court resulting in a favorable finding in one case upholding the decision of the Board of Appeals and a finding in the second case reversing the decision of said Board. A third Bill in Equity against the Town was dismissed for lack of prosecution. There are four additional actions in Contract still pending.

The Town Counsel has been available at regular and special meetings of the Board of Selectmen, has worked in close co-operation with the Town Manager, has rendered opinions as requested by the Town Manager, various Boards, Departments, Committees and Officers, has attended meetings at State Boards and Commissions, and has been vigilant in all matters affecting the interest of the Town.

For the kind consideration and co-operation extended to me by all the officials of the Town during the past year, and especially to the Board of Selectmen and Town Manager, I desire to record my sincere appreciation.

Very truly yours, Joseph A. Purcell Town Counsel

Purchasing Department

I herewith submit the report of the Assistant Purchasing Agent for the year ending December 31, 1972.

Our continued responsibility is to obtain competition for materials or services needed by the various Town departments without sacrificing performance or quality.

Prices continued to rise steadily throughout 1972. Inflation is here and I am extremely fearful that, with restrictions being removed, 1973 is not going to be one of our better years. In spite of this, the spirit of competition still prevails. In many instances in 1972 we were able to obtain excellent bid prices - especially on sizeable building maintenance projects.

Presently we are paying \$.1350 for No. 2 fuel oil and \$4.88 for No 4 which has a residual sulphur content of 0.50 percent or less. These prices have remained comparable with those of 1971 but our serious problem this winter is supply rather than price. It is to be hoped that restrictions on the import of oil for the cold northeastern part of our Country, which are certainly ambigious, will be lifted.

During 1972 we had approximately one hundred (100) sealed bids. These were sought by public advertising or by circular letter to three or more vendors. Specifications were carefully drawn for these materials or services. After opening these bids, the results were analysed and an analysis with recommendation presented to the Town Manager. In many

instances the low bidder had to be investigated relative to reliability, performance, etc. Once the award was made contracts were prepared. The successful bidder was then notified of the requirements such as performance or labor and material bonds, liability and property damage insurance requirements, along with workmen's compensation which is statutory. Upon receipt of the contracts, properly signed, along with the bonds, insurance certificates and votes of corporation, the entire package was forwarded to the Town Counsel for his signed approval. These contracts were then signed by the Town Manager. All bids received, a copy of contract, bonds, insurance, vote of corporation, etc. were then forwarded to the Town Accountant along with a purchase order covering amount for proposed project. The Town Accountant then signed the purchase order, thereby certifying that adequate funds were available and were being encumbered. The contractor or supplier of materials was then allowed to proceed with project or service.

In addition to the bidding aspect we processed approximately six thousand (6000) purchase orders.

Most of these constituted small items for which we obtained quick telephone quotes. This method is effective, as we have been able to establish a list of reliable suppliers who provide competitive prices along with quality and serivce.

In 1972 we participated in a cooperative bid on road salt with our neighboring communities of Brookline, Lexington, Belmont, Watertown, Cambridge and Waltham. This produced an excellent price — \$1.90 less per ton than we paid in 1971.

I wish to take this opportunity to express my sincere appreciation to the Town Manager, Board of Selectmen, various Commissioners, Town Officials, Committees, Department Heads and my staff for their cooperation throughout the year.

Warren E. O'leary Assistant Purchasing Agent

Housing Authority

The Arlington Housing Authority submits herewith its annual report for the year 1972.

In January Mrs. Joan C. Gross was appointed by the Department of Community Affairs as the State appointee to replace Myron D. Chace, who had served on the Authority for twenty-three years. At its An-

HOUSING AUTHORITY.— (Left to right), Mrs. JOAN C. GROSS, FREDERICK R. BUCKLEY, Jr. (Standing), JOHN F. CUSACK JOSEPH S.VAHEY, Chairman. JOHN J. HOGAN.

nual Meeting held in March 1972 the Housing Authority elected Mr. Joseph S. Vahey, Chairman; John J. Hogan, Vice-Chairman; Frederick R. Buckley Jr., Treasurer; John F. Cusack, Assistant Treasurer. All officers to serve for a period of one year.

The Authority operated over five hundred apartments for persons of low income, including 308 elderly apartments located in three separate projects, 176 Veteran's apartments, and 48 apartments throughout the Town under the State Rental Assistance Program. Total rents collected from tenants were in excess of \$ 361,000; total subsidies received from the State were in excess of \$ 390,000. The Authority also was able to obtain in cooperation with the Menotomy Manor Veteran's Tenant Association a grant of \$ 30,000 in Modernization Funds to be expended at the Veteran's Housing Project, which is now over twenty years old. Income limits established in 1971 for all projects remain unchanged.

At the Annual Town Meeting held in March, the Authority sought and received permission to construct not more than 150 additional units for elderly persons under the State Housing Program.

At this same Town Meeting the Authority sought a consensus of Town Meeting Members as to the

desirability of developing a Housing Project for Elderly persons on land located on Summer Street near Hospital Road, presently owned by Symmes Hospital. A vote of approval did not prevail. The Authority submitted to the Massachusetts Department of Community Affairs an application for funds to provide up to 25 units for a rehabilitation

Housing Program.

The Authority applied for, with the approval of the Selectmen, Federal funds to be expended under a Leased Housing Program. The Annual Contribution Contract, with the Department of Housing and Urban Development, was approved in June 1972. Funds for this program are expected to be received in early 1973, whereby twenty families and twenty elderly persons can be assisted.

During the year the Housing Authority made its 22nd consecutive payment in lieu of taxes in the amount of \$ 6,336.00 the maximum allowed under State regulations.

The Authority wishes to thank the Board of Selectmen, the Town Manager, and all other Boards and Department heads for their excellent cooperation in various matters throughout the year.

Respectfully submitted,

ARLINGTON HOUSING AUTHORITY Joseph S. Vahey, Chairman John J. Hogan, Vice Chairman Frederick R. Buckley, Treasurer John F. Cusack, Asst. Treasurer Joan C. Gross, Member

ENGINEERING

The Engineering Department continues to serve in its advisory capacity providing technical assistance and expertise to the citizens of the Town, Boards, and Commissions, and other Town Departments. A program started 3 years ago soliciting requests for aid in drafting warrant article descriptions and estimates has worked well with the more cooperative and

enlightened Boards and groups even though the entire program has not met with exceptional success. New zoning controls providing for site plan review demonstrate a switch in emphasis in the Town to control of private property rather than just control of streets and personnel time in the Engineering Department reflects the same switch as the Town deemphasizes street construction.

This year we have been fortunate to have the services of a Traffic Engineer under the Emergency Employment Act, who, although reporting to the Traffic Commission has been housed within the Engineering Department. He has provided us with much needed technical assistance in the Federal and State program to increase capacity and safety throughout the Town, as well as being able to evaluate the myriad of requests for review of existing and proposed traffic controls.

I extend my thanks to the members of the Town Boards, Committees, and Departments as well as to the Engineering Department Personnel for assistance received throughout the year.

Robert L. Higgins Town Engineer

JOHN J. BILAFER Collector of Taxes and Town Collector

Board of Assessors

John G. Perry, chairman; Abner P. Wyman, Assistant Assessor; John B. Byrne (Paul E. Cantrell, Assessor not present at time of photo)

REPORT OF THE BOARD OF ASSESSORS

During 1972 The Board of Assessors held their regular weekly meetings on Monday Evenings and The Chairman scheduled many Special Meetings on Wednesday Afternoons and Wednesdays Evenings. Most of the hearings held with the taxpayers were held on Saturdays.

Mr. John B. Byrne, Jr. was reelected for a 3-year term at the Annual Town Election on March 4, 1972.

The organizational meeting was held on March 6 and the Board Members, Mr. John G. Perry, Mr. Paul E. Cantrell and Mr. John B. Byrne, Jr. met and unanimously elected Mr. John G. Perry as Chairman and Mr. John B. Byrne as Clerk for the ensuing year.

In January, the Assessors made individual inspections throughout the town and assessed Personal Property at \$11,163,150.00.

On August 2nd, the 1972 Tax Rate was set and approved by the Tax Commissioner at \$56.80 — an increase of \$5.00 over the 1971 Tax Rate. The greater portion of this increase is in higher education costs, with the balance showing in State and County charges, protection of persons and property and Insurance and Pensions.

The tax bills were processed and completed by August 10 and were mailed a few days later by the Tax Collector.

Applications received for exemptions and abatements on Real Estate, Personal Property and Motor Excise totaled 7,000 by Dec. 31. The processing of these applications requires a tremendous number of hours and this work is incomplete as this report is written. Changes made by the Legislature increased the allowance to the Disabled Veterans and made more elderly applicants eligible for statutory exemption.

The Board of Assessors call your attention to the adverse effect of the Cherry Sheet in the past few years in its impact on our Tax Rate. In 1967, the Cherry Sheet supplied a surplus of \$1,186,795 and in 1972 a deficit of \$1,192,445. This is nearly a \$2,400,000 loss which is beyond municipal control and seriously hurts the Arlington Property Tax Rate.

January 1, 1973 will be the beginning of the Transitional Period to change from the calendar year to the Fiscal year effected July 1, 1974. All appropriations made at the 1973 March Town Meeting will be made for an 18-month term. There will be

a 12 month tax bill due on October 1, 1973 and a 6 month tax bill due on April 1, 1974. There are pending amendments to this Fiscal Year Act that would require additional work for the Assessing Department and the Tax Collector's Office. These proposed changes were made after the 1973 Budgets were completed.

Mr. John G. Perry, Chairman of the Board of Assessors for this past year, was appointed Treasurer of the Lowell Cooperative Bank and announced in December that he would complete his term of office and not seek re-election. Mr. Perry has served the Town with dedication and knowledge and he is wished success in his new position.

Mrs. Margaret M. Hutchinson, Head Clerk, retired Dec. 31, 1972, after having served with the Assessors Office for nineteen years. A Testimonial Dinner was given for Mr. and Mrs. Hutchinson on Dec. 8, 1972.

During the year the Board of Assessors has met with and worked in cooperation with all of the Town Officers and Departments.

The Board of Assessors and their Assistant Assessor attended Tax and Appraisal Courses now required by the Tax Commissioner. Members of the Board of Assessors and their staff attended all possible conferences and seminars conducted by the Department of Taxation. The Association of Massachusetts Assessors and the Middlesex County Association.

Respectfully submitted, John G. Perry, Chairman Paul E. Cantrell John B. Byrne, Jr., Clerk

The Building Inspector issued the following permits during 1971 and these properties were inspected by the Assessors. Assessments and record changes were made for the 1972 Tax Levy.

Apartment Building	1	Foundations	2

HUMAN RESOURCES

The Department of Human Resources, consisting of divisions of Health, Recreation, Consumer Protection, Veterans'. Services, Manpower and Youth Services, has completed its first full year of operation.

This has given us an opportunity to work collaboratively on many issues. We are encouraged that this combination of services can be an effective instrument in dealing with the multiplicity of problems which seem to be pervading our society.

Each component of Human Resources has attempted to maintain its budgetary level while expanding

needed services through the use of federally funded programs and a sharing of personnel.

Most importantly, we must look at our services to the citizens of Arlington from a broad perspective in order to insure that there be no duplication and that all needs are addressed.

This year has demonstrated that through the cooperation of the various division staffs and chiefs, we can achieve this broad perspective and deliver the maximum effective program at the lowest cost to the taxpayer.

Board of Health

The Board of Health experienced a very busy year in 1972 more so than in past years, as residents of our community are becoming more cognizant of new legislation which affects their day to day life. For example, since the inception of the Department of Public Health Air Pollution Regulations, many people call to register complaints against apartment house owners who continue the use of their incinerators. Numerous complaints were investigated; some of which were referred to the Bureau of Air Use Management for failure to comply with the new regulations. The Bureau of Air Use Management has the authority to initiate legal action against violators. With regard to the Town of Arlington, two cases have been referred to the Attorney General's Office. The great majority of owners of apartment house incinerators have been most cooperative and are in compliance with the new regulations.

In 1972, the Board of Health, Council on Aging and Arlington Visiting Nursing Association met frequently to discuss and formulate plans which would be of benefit to the Senior Citizens of the community. Thus, the Hearing Screening Program and Influenza Immunization Program were implemented. The Boston Guild for the Hard of Hearing provided the professional operator and mobile unit for such testing and the Rotary Club of Arlington co-sponsored the program for which we were most grateful.

A Glaucoma Screening Program was held during May of 1972 in the Town Hall Auditorium. This successful

program is conducted for Arlington residents age 35 and over, and is sponsored by the Arlington Zonta Club. Of those who were screened, 32 were referred to their ophthalmologist or an eye clinic for further testing by our Public Health Nurse.

Last but not least, the Arlington Lions Club is to be commended for again sponsoring a pre-school vision screening program which was held May 13, 1972. The clinic was conducted in cooperation with the Massachusetts Society for the Prevention of Blindness. This too was a successful program with referrals being performed by the Public Health Nurse.

In the Anti-rabic Vaccination Clinics held during April, we inoculated 962 dogs with Rabies Vaccine and provided the rabies identification tag for each dog inoculated. Whereas rabies vaccine now has a two year immunity level, the next Dog Vaccination Clinic will be held during April 1974.

The Board of Health inspection of all food retail stores and food service establishments continue to be made. Several inspections and re-inspections were conducted during and after the "Red Tide" incident. All persons involved cooperated to their full extent.

In the year 1969, the Arlington Board of Health issued an order to fluoridate its water supply to an optimum level, which has yet to be implemented. During 1972 Attorney General Robert H. Quinn ruled that the Metropolitan District Commission has the authority to

fluoridate the metropolitan water supply by the vote of 28 boards of health in its 32 community members; far more than the majority required by law. The Metropolitan District Commission voted to fluoridate its water supply system and received \$25,000 from the Legislature for the drawing of plans with cost estimates. The engineer's report is expected to be submitted during February 1973. Hopefully the communities will be fluoridated within a year.

Communicable Diseases

The Board of Heath's statistical records show that the so-called childhood diseases are still on the decline. With regard to measles, the efficacy of measles vaccine is demonstrated by the fact that there were only 3 cases of measles reported this year. All 3 being within the same family. We attribute this extraordinary statistic to the local physicians for their cooperation and from the Measles Vaccination Programs conducted by the Board of Health.

Board of Health Innoculation Instructions

This year the state Department of Public Health classified municipalities having Tuberculosis as either a High Risk Community or Low Risk Community. We are pleased to report that the Town of Arlington is designated as a Low Risk Community while neighboring communities were not as fortunate. Although we experienced only 4 new reportable cases of TB in Arlington during 1972, the prevention and control of TB and all other communicable diseases is still very much a part of public health.

We continue to provide free immunization material to all local physicians for polio, diptheria, tetanus, measles, rubella, whooping cough and mumps from our Biologic Station. The federal government supplements the State's appropriation to provide such free immunization material. These vaccines have proven very effective and by immunizing the maximum number of children, we can control each of these diseases locally and throughout Massachusetts.

During 1972 the State Legislature amended the Vaccination and Immunization Law. On April 13, 1972, Governor Francis Sargent signed a bill which eliminates the compulsory vaccination against smallpox for children entering school. The law became effective on July 11, 1972.

Much time is spent in telephone consulation with physicians and school health nurses. Every day we answer a myriad of questions ranging from immunization requirements for foreign travel, to when a child should return to school after having a contagious disease.

Complaints of water pollution, air pollution, rodent control, rubbish and garbage storage disposal and all phases of housing complaints, i.e., lighting, heating, hot water etc., are but a few of the types of complaints that are investigated throughout the year. We have been very successful in having conditions abated without legal action after confronting the responsible person (s).

Board of Park Commissioners

The Board of Park Commissioners elected Charles T. King, Chairman for the 1972 season in January serving with Lawrence Babine and J. Fred McGann.

The Board granted permission to the School Department to use Crusher Lot located adjacent to the Ottoson Jr. High for school purposes during school hours. Land will not be developed but used for cultural and recreational activities. Additionally, the Board agreed to transfer Meadowbrook Park area to the Cemetery Commissioners for burial purposes. Also, they sold to DiMare Brothers a portion of park land adjacent to Fowles' Pond and received from the

same firm a parcel of land which provided an access to Fowles' Pond from Russell Street. This sale was approved at the 1972 Town Meeting.

The Board worked diligently during 1972 to purchase a parcel of land on Pond Lane formally housing the Arlington Pipe and Supply Company. In connection with this, the Board inserted an article in the 1972 Warrant to purchase the land. The article was defeated but the Board kept working to acquire the land, since it would be an invaluable resource for recreation on Spy Pond. At years close, the land was still available and the Board will continue to pursue the matter in 1973.

Chairman King represented the Board on the Spy Pond Study Committee while Mr. Babine represented the Board on the Open Space Study Committee. The Board was also kept informed on the workings of the Recreational Facilities Committee.

In late November, Mr. Babine resigned from the Board due to increased business pressure and at years end, no new appointee had been named.

Throughout the year the recreation office worked closely with school, church, and other organizations and individuals in issuing permits for the use of park property. Further, brochures were compiled and distributed throughout the community as well as weekly news releases in the local paper to inform residents of the recreation programs offered to them.

Recreation

Recreation in Arlington prospered in 1972 as thirteen new programs were added during the year. With the increase in leisure time, recreation is a most sought after commodity. The town-sponsored recreation programs provide a tremendous outlet for the residents and blend in well with other recreation activities offered privately in the community.

Summertime activities are a major source of recreation. The playground program was in operation this year from June 26 to August 16 with a total attendance of 81,863 children utilizing the programs and facilities during this period. In addition to the

daily activities such as baseball, arts and crafts, archery, tennis, group games, etc., special events spiced the program again. Bus trips to Lincoln Park, Fenway Park and Whalom Park attracted over 1200 children; while the annual Weenie Roast, sponsored by the Arlington Lodge of Elks and American Legion Post No. 39, attracted a like amount of children on July 26th. The Annual Track Meet and Parent's Night were also successful in 1972. The Final Day Fair, sponsored by the Boys' Club Associates, was switched to Warren A. Peirce Field this summer and over 1500 residents enjoyed games, pony rides and the presentation of awards.

Other summertime recreation programs included; Reservoir Beach swimming, Adult Men's Softball, Twilight Basketball, Suburban League Girls' Basketball and Softball and two new programs, a Teen Age Summer of '72 program and Women's Softball. The Reservoir Beach enjoyed a good season with a total attendance of over 25,000. Swim classes were very popular as over 300 children took part in swimming instruction. Adult Men's Softball involved over 250 men, four nights a week from May to August while Twilight Basketball involved 120 high school youngsters two nights per week. Suburban League Basketball and Softball squads had successful seasons as both squads made the playoffs. The Summer Program for Retarded Children enjoyed its best summer in recent years with varied activities and field trips. The two new programs were well received by the community. The Summer of '72 Teenage Program met with moderate success. The program was organized to fulfill some of the recreational needs of teen agers during the summer months. The program had some good activities but did not reach a great number of the teen age population. 1973 will see a change which we hope will involve more youngsters 13 to 18 years of age. Women's Contrary to this, the Program was extremely successful in terms of participation, enthusiasm and attaining its purpose of fun, relaxation and exercise for the women in the community. A total of 89 women participated in the four team league. A total of nine games were played by each team, plus playoffs. The women truly enjoyed themselves and expansion will take place in 1973 if the demand warrants it.

Programs during the fall, winter and spring months were well attended this year and new programs were added to provide more things for people to do in the way of organized recreation programs. The most popular new programs were the Chess Club and Skating Program.

The Chess Club began in early April after a few notices in the local paper. Twenty-two were at the first session and since that time membership has risen to

156 members at year's end. Each Friday evening at the Town Hall, anywhere between 50 and 80 of the members got together over the chess board. Also, a new learn-to-play chess program was begun on Friday afternoons. Due to the continual rise in organized hockey programs in town and the overlap in boys playing on a number of different teams, the Recreation Hockey Program was discontinued in favor of a more comprehensive program. The new comprehensive program includes; beginners' skating, basic skating, hockey instruction and adult beginners' classes. Registrations have filled all classes through March of 1973 and over 1000 different people will take part in the various classes.

Other new programs in 1972 were added due in part to the addition of a new Recreational Programmer, who was added to the staff in February as part of the Emergency Employment Act. Co-Ed Volleyball began in September, Senior Citizen and Retired persons' weekly programs began in March, Ballroom Dancing classes are planned for January of 1973. Two popular new teen age programs were an Indoor Golf Program which began in May and a night Tag Football Program which was conducted on Tuesday and Fridays from late September to early November. Additionally, the division coordinated a Ski Program with the Nashoba Valley Ski School and conducted a Boston Globe Ski Clinic in late November.

These new programs combined quite well with the other fall, winter and spring programs. Both children and adults are able to take part in fall, winter and spring activities. Childrens programs consist of such activities as Baton Twirling, Elementary School Boys Basketball and Football, Fashion Modeling, Junior High Girls' Softball, Junior and Senior High Boys' Basketball and Arts and Crafts for Elementary School Girls. Adult activities include, in addition to the new ones mentioned above, Men's Basketball, Women's Fitness, Men's Fitness, Indoor Golf and the Golden Age Club which is open to residents 65 years of age and up and meet on the first and third Thursday of each month.

Youth Services

previous Department of Youth Services, a delinquency prevention program and Youth Consultation Center, created as a drug abuse prevention program. The operation of these previously distinct structures is now one. The many services of these two combined groups is presented below:

Robbins Cottage

Youth Services has now encompassed both the than police or court and mostly after previous runaway. The average time spent at the Cottage ranges from three days to seven months, with the median being three months. No service seems to be more significant than this, which allows girls who cannot remain in their own homes to still remain in their own community and attend school, thus not totally disrupting their individual lives.

The Robbins Cottage has now served a total of 19 The Robbins Cottage Association continues to provide enrollees. Only one of these 19 were referred by other those aspects of the operation which are not financially attributable to the town; such as allowances, cosmetics, etc.

Youth Employment

In conjunction with the Manpower Coordinator the youth employment program was continued. Over 300 youth have registered for employment as babysitters, vard and attic cleaners, etc. If you need a youngster to work for you, please contact us, we need employers!

Services

During 1972, The Arlington Youth Services has continued to expand its services into the community and its institutions in an effort to emphasize prevention and early treatment of youth problems which could or have resulted in drug use. Our efforts this year have us working with well over 800 youth and parents, who are in active involvement with the Youth Consultation Center. These services have been

developed on many levels:

Through utilizing staff for in-house ongoing treatment for individual, group and family therapy. Our in-house "caseload" is approximately 350 people. 2. Through utilizing staff for reach-out activity which includes work not only into the streets, but into the high school setting, leading groups, providing individual counseling and collaborating with school personnel. In addition, staff members from the Center are conducting mini-course in human growth and development and around problems of adolescence on a weekly basis. This effort has enabled us to reach over 250 more young people.

Through utilizing staff to train volunteers (teachers, parents, and young people) to conduct rap groups with "problem" youth on the junior high school and elementary level. Utilization of volunteers trained at the Center has provided additional nonpaid services and enabled us to reach out to another

200 or more youngsters.

4. Through utilizing staff to train teachers and other school personnel in handling problem youth within the school setting. Our effort here is to provide backup services, consultation, training of staff, and direct services to youth referred by school personnel. In addition, Youth Services has been instrumental in organizing the Inter-Agency Coordinating Committee for Student Services to work with school administrators and others in developing and implementing more effective services to youth in the school setting. This effort has resulted in our providing in-service training seminars for teachers, guidance counselors, and other school personnel, as well as involvement in case conference teams at the schools. Our effort to collaborate and coordinate services with the Arlington Public Schools has been our most important priority this year. Our future plans include reaching into other community insitutions which serve youth and their families and to establish a network of referrals and a "team approach" to effectively deal with troubled families within the community.

Intake: Over the year our monthly intake of new cases averaged twelve per month. This includes both parents and youth at about 30 percent to 70 percent respectively. While most cases of youth referrals were around issues related to family, court and school problems, at least 80 percent had some experience with drugs. It is important to note that the use of drugs among young people is widespread although not with the same epidemic proportions as two years ago. The use of drugs (mainly barbiturates and alcohol, separately, and in combinations) continues to be the most common and the most dangerous incidence of drug use among young people in our community. The continuation of intervention with both parents and youth alike, has had considerable impact in the community. The fact that the use of drugs is no longer an uncontrolled epidemic, however, should not imply that the drug problem is overrather, we feel strongly that our broader and more extensive intervention into the problems of youth and their families must continue in order to provide the services that arrest the problem from developing into an unworkable situation and, in many cases, beyond help.

We see ourselves in much broader terms than strictly drug rehabilitation or delinguency prevention and necessarily so. No effort to deal with drug abuse can stop short of dealing with the whole community as the client. It means developing and providing services to youth and families alike, to schools, churches, and other resources and personnel to whom the people of this community go for help. It is our strong conviction that such an effort deserves this kind of thorough approach and investment.

An example of such a program was our Police-Youth Training Program. With the direction and guidance of Chief Ferdinand Lucarelli and Capt. Henry Bradley, Mrs. Patsy Kraemer and Mr. Robert Daniels were afforded the opportunity of conducting a five session in-service training program with 13 sergeants of the Arlington Police Department.

This kind of unique and progressive program is now possible under the combined operations of Youth Services and the Youth Consultation Center and its impact can have a positive effect on the community in years to come.

Consumer Protection

In the reorganization plan adopted at the 1971 Town Meeting, the position of Sealer of Weights and Measures was broadened to include Consumer Protection. This meant that Civil Service had to design a new examination which was finally given in the spring of 1972. The results were released in November. Receiving the highest grade and subsequently hired, was Walter B. Hauser, who assumed his duties in the last week of November. One article in the Advocate was enough to bring in a fantastic number of telephone calls, ranging in complaints from faulty tooth brushes to outright fraud in the sale of a damaged car.

tooth brushes to outright fraud in the sale of a damaged car.

If this is any indication of what we can expect in the future, we have added a dimension of community service which will be much used and obviously fills a great need.

Our first step in 1973 will be to create a consumer council, made possible by legislative action.

Veteran's Services

There is much confusion regarding Town sponsored Veterans' Services and the Federally sponsored Veterans Administration. Both are connected but each is separate.

Under Chapter 115, as amended, of the General Laws of Mass., local communities were mandated to provide financial assistance to veterans and their dependents, who are in needy circumstances. One-half of all funds expended for benefits are returned to the Town by the State on the Cherry Sheet. Interestingly, if a town does not appropriate the money it is still expended but there is no reimbursement.

The Veterans Adminstration is the federal agency which handles disability and death awards, training and education and other benefits.

However, the local Veterans' Service office provides proper forms and assistance in filing for service-connected compensation, non-service related pensions, home loans, schooling, medical benefits, death indemnity compensation and other rehabilitative services.

They are, in effect, a local office of the Veterans Administration, who initiate and follow through on all local cases.

Proposed state reorganization would put this service under state control and finance. We hope it won't lose its local individuality.

Manpower Development

Under the Emergency Employment Act (EEA), a Manpower Development Coordinator was hired in May. His first task was to represent Arlington in the newly formed Ancillary Manpower Program Board and to coordinate the EEA Program.

Through his efforts, Arlington initiated its first Neighborhood Youth Corp (NYC) during the past summer, involving some 40 disadvantaged youth and \$15,380. collected in wages for working in Town and non-profit organizations projects.

He also coordinated the EEA program, (renamed Public Employment Program PEP), 23 employees, \$97,000.

The difficulties of running these federally sponsored programs, whose rules change day by day, have required an immense amount of work in committees and with individuals. The total input of dollars into the Town more than justifies this position but the major impact still remains in future programs.

The Manpower Development Coordinator is involved in the Work Incentive Program (WIN), the Manpower Development Training Act (MDTA), and is engaged in a data collection program of employment trends within the Town. He also offers employment counseling to any unemployed within the Town.

Council on Aging

In accordance with Section 49, Chapter 40 of the General Laws of Massachusetts, the Council On Aging respectfully submits its 6th Annual Report for the year ending December 31, 1972.

ORGANIZATIONAL AND MEETINGS

The Council regretfully accepted the resignation of Mr. Walter Jones who continues to serve the Council in a consultive capacity as required. Mrs. Margaret Nicholl was appointed January 31, 1972 to fill a vacancy which expires May 8, 1973. Mr. Chester Zucker was appointed in June 1972 to fill a vacancy which expires May 8, 1974. Reverend Wilbur D. Canaday, Jr. was appointed October 10, 1972 to fill a vacancy which expires May 8, 1973. Regular meetings are held every Wednesday night at Jarvis House, 50 Pleasant Street, Arlington. The Council meets with the Executive Secretary and the Health Nurse for the Elderly to formulate policy, discuss programming and project plans for the future.

Co-mingling of Commonwealth Funds and Town Funds have permitted the Council to hire full-time and part-time staff.

Mrs. Phyllis Lavelanet joined our staff as Executive Secretary on March 20, 1972. Mrs. Beverly J. Kerivan joined the staff as Secretary Bookkeeper on April 15, 1972. Miss. Joan Murphy, Health Nurse, joined the staff on April 10, 1972 under a sub-contract with the Arlington Visiting Nursing Association. Mrs. Marguerite Coffey, a former Commonwealth Service Corps. Volunteer with the Council, joined the staff on May 8, 1972 as a part-time Community Aide. Mrs. Diane Tanter joined the staff on September 5, 1972 as a part-time Community Aide / Outreach Worker.

The Council is a 7 member Town Agency and elects Officers annually. Mr. Harry McCabe is Chairman, Mrs. Carolyn Crosby is Treasurer and Miss Dorothea Nicoll is Secretary. Council office and Senior Drop-In-Center, renovated and completed in June of 1972, occupies the 1st floor of Jarvis House, a historic home. Space was made available to the Council by the Town of Arlington at the 1971 Town Meeting.

PROGRAM COMPONENTS

The Council provides a wide range of services, many new; several services on-going and greatly expanded in scope:

HEALTH PROGRAM

Major goals of the Health Component, which focuses upon prevention, health maintenance and continued self-sufficiency, are carried out through teaching, counseling and referral. Multi-site locations have been utilized and 725 persons have been served in 1972. The Health Program initiated 2 Oral Cancer Screening Clinics, offered Flu Shots to the Elderly and Town employees and worked on Hearing and Glaucoma Clinics.

DROP-IN-CENTER PROGRAM

Located in the center of Arlington, the Drop-in-Center provides a focal point for programmatic activities for Seniors which are recreational, educational and social in nature. A total of 439 persons have been involved in Center programs since it's opening in July, 1972. A monthly calendar listing all community activities for the Elderly is collated and printed for distribution throughout the Town.

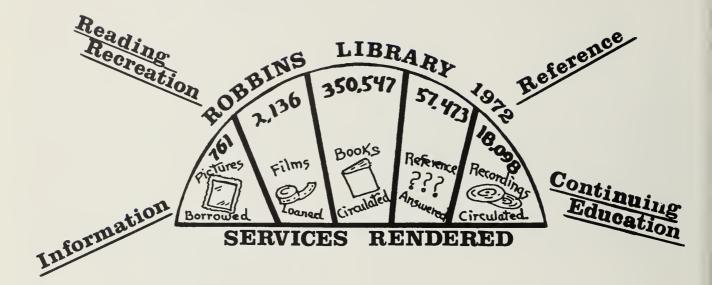

OUTREACH COMPONENT

The goal of informing the Elderly of existing activities, benefits, and resources has been fulfilled through the Center's Information and Referral Service, it's Tax Abatement Program, it's Food Commodities Program and it's close association with Senior Citizen Organizations.

{|||.

Sincere thanks are expressed to all public and private agencies, groups and individuals who shared their enthusiasm, efforts and facilities with us during the past year.

LIBRARY

New programs added to old ones — new kinds of services — continual change — this is the story of the Robbins Library during 1972. Its facilities have been used by the young, the middle aged and the old, all borrowers of theRobbins Library as the following figures indicate:

ΔΔΔΔΔΔΔΔΔΔ

Population of Arlington — 1972 — 53,524

ΔΔΔΔΔΔ

Registered borrowers — 1972 — 33,503

Each figure represents 5,000 people

SPECIAL ACTIVITIES

Among the special activities of the year have been a series of five concerts arranged by the Music Department, Flicks for a Friday Evening — movies

out-of-doors in the summer and indoors in the fall, a series of three lectures on investments, a grand finale for the children of the Summer Reading Club who filled the Town Hall on a Saturday morning to see a Puppet Show presented by the well-known Johnny Sisson, a mini-course on poetry for pupils of the Junior High East, 48 preschool story hours, and 82 children's programs of stories, movies and filmstrips.

Perhaps the outstanding event was the National Library Week program held in April at the High School Auditorium, sponsored by the Friends of the Robbins Library, with Monica Dickens, granddaughter of Charles Dickens, as the speaker. A Book Sale held in October was another "first" for the Friends of the Library.

NEW PROGRAMS

One of the exciting new programs initiated during the year was the Circulating Art Collection, housed in the lower level gallery at the Fox Branch, and made possible by the Trustees through the use of trust funds, and by a gift of \$400 from the Friends of the

Library. An Open House at the Fox Branch in October, with the cooperation of the Arlington Art Association, the Arlington Garden Club and the Friends of the Library, launched this new project.

Another innovation was the program for Volunteer Services with Mrs. John M. Peters as coordinator. A number of Arlington citizens are donating several hours each week providing valuable assistance in many ways.

As a member of the Eastern Regional Library System, the Robbins Library is able to provide its borrowers with daily delivery service from the Boston Public Library. Begun early in 1972, books and other materials not in the local library collection have been obtained for library patrons free of charge.

GIFTS

The Library has been the recipient of gifts from many sources. Generous borrowers and organizations have donated books and periodicals, beautiful American and State flags have been presented by the Arlington Lodge No. 1435 of the Benevolent Protective Order of Elks, historical maps have come from the Arlington Historical Commission, Japanese phonorecords and a Geisha doll were the gift of the group of Japanese students who visited the town during the summer. And again, in 1972, the Library has been decorated with flower arrangements and plants by the Arlington Garden Club.

TRUSTEES

During the year the Board of Trustees lost two valuable members, Mrs. Molly Yood, after 19 years and Mr. Norris H. Hoyt, after 6 years of service. Appointed to fill the vacancies were Mr. William M. Capron and Mr. William F. Homer, Jr.

INFLATION AND THE BOOK COLLECTION

COOPERATION WITH SCHOOLS

As usual the Library has worked with the schools of the town, helping the students with their reading, guidance and lesson assignments, supervising the elementary school librarians and ordering and processing school library books. The Dallin Branch has continued to be used for classes of the Park West Program during morning hours.

STUDY COMMITTEE

At the request of the Trustees, the 1972 Town Meeting voted to appoint a committee to investigate and study the adequacy of the physical plant of the Robbins Library...The committee was appointed and the services of a consultant have been secured to undertake a survey of space requirements of the library and to offer alternative recommendations for solving such problems.

After such recommendations have been received, the committee will make a decision about placing an article in the 1973 Town Warrant for preliminary plans for any expansion necessary.

Preschool children listening to stories

PUBLIC WORKS

The Department of Public Works is vitally essential to the day-to-day functioning of the Town. The services provided in our community are an integral part of our citizen's everyday lives. However, it is not a "glamorous" department under the public's eyes and usually does not command the attention commensurate with the function it performs.

An array of statistical information is probably the best way to depict some of the "unglamorous" functions of the departments during 1972.

SANITATION

The departments collected, hauled and disposed of over 40,000 tons of household rubbish this year. The Refuse Transfer Station has now been operating three full years and continues to function efficiently at the Town Yard. The disposal of solid waste is still the most important public works problem confronting us today. Presently we have a short term solution but there seems to be no long range solutions available. It seems that every city and town is waiting for the State and Federal Government to move in this area but thus far no solutions have been provided.

Refuse transfer station

WATER DIVISION

This division provided through its distribution system approximately 2,750,000,000 gallons of water for the residents of the town this year. This is an average daily consumption of approximately 134 gallons per day per inhabitant.

There are 127 miles of water mains in the Town of Arlington, 6 inches or more in diameter, and approximately 100 miles of service pipes in the Town. (Service pipes are used from the water main in street to the houses.) In addition there are 1,369 fire hydrants and 3,223 main water gates on our distribution system.

Receipts collected from the sale of this water amounts to approximately \$600,000.00 per year which goes into the General Fund.

On May 30th personnel from this department and the Fire Department conducted a month-long Volume and Pressure Survey of the Water System in order to determine to what degree there are inadequacies in the Water System with regards to volume. The results of this survey are being compared with the results of three previous studies 1954, 1959, and 1964 to determine what corrective adjustments will have to be made in the system.

HIGHWAY DIVISION

1972 was a year of extreme weather conditions marked by a new record for precipitation in this area. (This record goes back to the year 1885). The year weatherwise could be described as cool, very wet and cloudy. Weather more than any other element directly affects Public Works Activities. On several occasions this year we responded to flooding conditions in various areas of the Town due to heavy rainfall. In the month of June alone rainfall was twice the normal amount.

Winter maintenance operations due to the heavy accumulation of snow in the month of February necessitated full scale plowing operations all through the month along with sanding, salting and snow removal operations. The Department has tremendous pride in their snow removal operations and we are always seeking new and innovative techniques to improve the overall operation.

General housekeeping activites such as the street sweeping programs of our over 126 miles of streets continue throughout the year! The Maintenance Program of our over 99.74 miles of sidewalks continue throughout the year.

Leaf pick-up in the Fall which has greatly increased since the "No Burning" ban went into effect in 1970

(approx. 2,000 tons per year) seems to be much greater than usual. However this year there was an excellent response to an appeal by the department to residents not to rake leaves into the street but rather to clean them from the sidewalk and their property, store them in plastic bags and place them out for rubbish collection on their appointed day. This is a real example of citizen participation in the interest of good government.

Over 3,000 catch basins were cleaned during the year in addition to the regular maintenance of over 73 miles of storm drain mains.

The Seal Coating program continues during the Spring and Summer months and all or a portion of twenty-five streets were treated. Eighteen streets were reconstructed and / or resurfaced under funds provided by the State.

SEWER DIVISION

Regular maintenance was performed on our Sewerage System which consists of 115.76 miles of sewer mains; approximately 12,500 particular sewer connections and ten pumps chambers.

During the course of the year the department responded to approximately 600 calls for rodding and flushing of particular sewer connections due to stoppages. Revenue received from the charge to the homeowners for this service amounted to \$7,479.12 and went into the General Fund.

LOOKING AHEAD

We look upon the next several years as an era of rapid change as the demands and priorities for governmental operations shift by weight of public opinion and environmental necessity. If the Department is to continue to provide municipal services that are economical, up-to-date and sensitive to community expectations and meet the changes in the years ahead, it must be with the confidence and continued support and participation of all the citizens of the Town.

PLANNING and COMMUNITY DEVELOPMENT

Redevelopment Board

In accordance with Section 3 of Article 3 of the Arlington Town By-Laws, and also in accordance with Section 71 of Chapter 41 of the General Laws, the Redevelopment Board herewith submits its Annual Report for the year ending December 31, 1972.

During 1972, the Board reviewed major elements of the Comprehensive Plan and adopted several sections and published a report. The report, which was given wide distribution, contained sections of the Comprehensive Plan on Existing Land Use, Goals and Objectives, Mill Brook Valley Study Area, Massachusetts Avenue / Broadway Study Area, and Economic Base. Work is continuing on other sections of the Comprehensive Plan.

The major planning study undertaken by the Board is one of the Mill Brook Valley Area. This is an area generally bounded by Massachusetts Avenue and Summer Street, includes Arlington Center and the area, between the above two streets, and the Lexington town line. The goals and objectives of the Board in the Mill Brook Valley area are to provide new development opportunities; to open up the Mill Brook by providing a linear concept along the Mill Brook; to encourage State transportation officials to institute a rapid transit system along the present Boston & Maine Railroad tracks; to improve Arlington Center as a viable business and employment area; and to broaden the uses of the Mill Brook Valley to better serve the people of Arlington.

In the area of redevelopment, the Board approved the filing of an application with the Massachusetts Department of Community Affairs for a grant to study the Reed's Brook area on Summer Street. The State agency approved a grant of \$75,000 of State money to be matched by \$25,000 of Town funds for a detailed study and preparation of documentation leading to a Reed's Brook Project.

The Redevelopment Board, in cooperation with the Town Manager, prepared a 701 Application for

Comprehensive Planning and Management Studies and filed it with the Federal Department of Housing and Urban Development. This grant was approved by HUD, and it provided a grant of \$50,000 in Federal funds, with the Town to provide \$25,000 in staff time on comprehensive planning studies. This grant provided the Board with funds to undertake special studies with both Town staff and consulting services.

During the year, the Board attempted to exercise both its planning and renewal functions and, in order to better understand the problems of the town, arranged a series of meetings with almost every board and commission in the town to study the problems of the town. In addition, individual Board members served on a number of other boards and committees in the town further increasing their work load.

Between the start of 1972 and Town Meeting time in March, the Board developed a series of zoning articles for action by the 1972 Town Meeting. The more important of these was the proposed Hospital Zoning District. The 1972 Town Meeting supported the Redevelopment Board and adopted the Hospital District zoning and the other articles for technical zoning corrections.

In connection with development, the Board met with a series of private developers to review their proposals prior to their being submitted for building permits.

The Arlington Redevelopment Board wishes to express its appreciation for the cooperation extended to it by the various boards, committees, and commissions in the town during this year of operation, and especially to the Town Manager and the Department of Planning and Community Development.

Respectfully submitted,

George J. Remmert, Chairman Rev. Thos M. Kershaw, Vice-Chairman Robert J. Sheehan Joseph F. Tulimieri Stephen Pekich

Planning and Community Development Department

This Department, during 1972, continued its program of providing service to the public and to the boards and commissions and the Town Manager. The service to the public consisted of providing the research data to interested citizens, businesses and organizations of the town through its reports and through its inspection service and its streetlighting program. In the area of service to the town boards and the Town Manager, studies, work, review, and reports were prepared by the staff to aid the various boards and commissions and the Town Manager's office.

On the instructions of the Town Manager, this Department continued working closely with the Arlington Redevelopment Board to provide it with staff functions in the areas of urban renewal and planning. In the area of urban renewal, the Department prepared an urban renewal application for submission to the Massachusetts Department of Community Affairs for a grant of funds of three-quarters of the cost of undertaking the studies at Reed's Brook. This grant was approved on July 1, 1972, and the Redevelopment Board began work under this grant to qualify Reed's Brook as an urban renewal area.

In the area of planning, the Department prepared an application for comprehensive planning studies and management studies for the Town Manager with the first year's program primarily oriented toward comprehensive planning, and an application was prepared and filed with the Federal Department of Housing and Urban Development for two-thirds of the cost of comprehensive plan studies. In addition, the Department with in-house staff proceeded on the preparation of a number of inventory studies as elements of the revised Comprehensive Plan for the Town. These studies included Goals and Objectives, Existing Land Use, Mill Brook Valley Study Area, Massachusetts Avenue / Broadway Study Area, Economic Base Study, and Population Study, Five of these studies have been carefully reviewed by the Redevelopment Board and approved and have been published in mimeograph form with relatively wide distribution.

During 1972, the Redevelopment Planner has, at the request of the Board of Selectmen, been assigned to study problems of transportation with the Boston Transportation Planning Review (BTPR). The Boston Transportation Planning Review is an agency set up by the Governor to study the various transportation alternatives for highways and rapid transit, and one of the major areas of investigation is the so-called Northwest Corridor. The Redevelopment Planner has

Paul Donham, Redevelopment Planner; Leo T. Young, Director of Planning and Community Development; Richard J. Matthews, Planner.

been working closely with the Northwest Corridor group to study the problems and to participate in meetings and investigations of the possible extension of the Red Line from Alewife Brook to Arlington, Lexington and Rt. 128 via the Bedford Division of the Boston and Maine Railroad. The work involved extensive daytime meetings, the studying of drafts of the report, the preparation of station alternatives for Arlington Center and Arlington Heights, and review and comment on the various documents.

The Director and the Planner attended every meeting of the Zoning Board of Appeals during 1972 to represent the interests of the town of Arlington on requests for variances and special permits. The staff provided technical information and photographs of each application before the Zoning Board of Appeals.

Inspection Program

During the year, the four major areas of inspection including building inspection, housing inspection, electrical inspection, and plumbing inspection and gas were continued. The Building Inspector was given an assistant inspector with funds provided by the Federal Emergency Employment Act to assist him in a program of inspection and zoning enforcement work. With the Federal Emergency Employment Act funds, the department was able to return the appropriated salary to the town unexpended. Also, the Housing Inspector was supplemented in his work with the aid

of two assistant housing inspectors utilizing Federal Emergency Employment Act funds.

With the addition of six Emergency Employment Act employees and one person to work on urban renewal, the Department was forced to seek additional space and took over the old Civil Defense space in the basement of Town Hall below the Assessor's Office. This space was renovated and the inspection force, plus two clerical help, were assigned to work in this space. The former inspection area in the annex was converted to a planning office work space and the conference area was continued.

The Department of Planning and Community Development wishes to express its appreciation for the cooperation, assistance, and advice which it has received from the Town Manager, Town Counsel, other town officials, boards and department heads.

Respectfully submitted,
Director of Planning and
Community/Levelopment

Building Board of Appeals

During the year 1972, the Building Board of Appeals met to decide four appeals; two were granted, one was denied, and one is pending further study.

Respectfully submitted,

BUILDING BOARD OF APPEALS

Daniel A. Healy, Jr. Chairman Alfred A. Scott, Secretary Alfred C. Bridgens

Zoning Board of Appeals

For the year 1972 the Zoning Board of Appeals considered 49 cases which came before the Board. This number compares with 54 cases heard in 1971 and 103 cases heard in 1970.

The work of the Board of Appeals imposes a tremendous burden upon each of the members because considerable time is devoted to site inspections, research of the law, the hearing itself and the drafting and preparing of decisions.

For the past several years our report to the Selectmen and to the Town Meeting expressed our own caution

that the continued press to develop land to its highest possible use forces petitioners to come before us for strictly economical reasons in order to obtain variances from the application of the By-Law. The problem is that our zoning map and our zoning by-law needs considerable thought, analysis and change. We favorably note the fact that the Redevelopment Board has commenced such an undertaking.

Respectfully Submitted,

Richard Keshian, Chairman John Kenny, Secretary Francis DeRoche

Historical Commission

The Historical Commission, authorized by the 1970 Annual Town Meeting, has completed its second full year of operation. The year 1972 was a year of much accomplishment for the Commission.

During the year the resignations of the following members were received with regret: Mr. Charles G. Holgenhurst, Mr. Gerard J. Gagnon, and Mrs. Hollis M. Gott. All were appointed Associate Members.

To fill the above vacancies, the Town Manager appointed the following: Mr. Daniel M. Hooley, Mrs. Enrico E. Fabrizio, and Mrs. Marshall Newton.

The following were elected Associate Members: Mr. John P. Harrison, Edmund L. King, Jr., Frank K. Scott, Peter G. Flynn, Marianne Balazs, and Mrs. Martin Cohn.

Early in the year the renovation of the Jarvis House was completed and an attractive set of offices is now being occupied by the Town Counsel. The Council on Aging reports a large increase in its activities at the Jarvis House, and the Historical Commission has established its own office and work area in one of the upper back rooms.

During the Summer the survey work of the Commission was carried out by two Research Assistants, John F.A. Herzan and Marianne. Balazs. They completed the work on historic town maps for the years 1650, 1700, 1750, and 1800. These maps have now been reproduced and are available for purchase. In addition to the above project, a study was undertaken, at the request of the Redevelopment Board, of all properties in the Mill Valley Study Area; over three hundred properties were listed and briefly described for the use of the board. Also, all necessary data was collected and the necessary documents prepared for a request to have the Whittemore-Robbins House,

Library, and Town Hall included on the National Register of Historic Places.

At the Fall Special Town Meeting, money was appropriated for a matching funds grant to finance a town-wide survey of historic buildings. The grant money was not received, and the money appropriated has been returned to the Town.

During the year the Commission has continued to receive interesting and valuable mementos of the Town's history. Part of this collection was put on display by members of the Commission at the Main and Fox Branch Libraries; these exhibitions were well received.

The work on the Historical Brochure of the Town is now in its final stages, and the Brochure should be published early in 1973.

For the coming year it is planned to continue the survey of historical buildings in the town, a major responsibility of the Commission; to collect and display the mementos of our past; and to help inform the townspeople of our historical heritage.

The Commission thanks the many Town departments and individuals who have been of great assistance during the past year, especially the Town Manager's office, the Department of Planning and Community Development, and Library personnel.

Respectfully submitted,

Horace H. Homer, Chairman Daniel M. Hooley, Vice-Chairmen John G. Parillo Mrs. Enrico E. Fabrizio Mrs. Marshall Newton

PROPERTIES and NATURAL RESOURCES

Properties & Natural Resources

The Department of Properties & Natural Resources, a relatively new department of the Town, was formed by a merging of the previous Tree, Park, Building Maintenance and custodial staff. The objective being to concentrate the maintenance function of all buildings and grounds under one department.

The function of the department is to provide care for all the Town's properties including buildings and grounds, care and watch service on our environment as well as assist all other departments to the best of our ability. To do this, we administrate the Department under two subdivisions, the Properties Division and the Natural Resources Division.

NATURAL RESOURCES DIVISION:

Our tree and park crews cared for all of our playgrounds, parks, floral islands, town gardens and over 16,000 street trees. With approximately 150 acres of park land to care for as well as 95 miles of street trees, we were pressed to provide a suitable standard of maintenance.

We continued a positive program of tree planting. In a Town as urbanized as Arlington, we must constantly sustain our efforts to "keep Arlington green". 520 trees were planted in 1972, 419 were street trees planted on new streets and as replacements for trees removed during the year, and 101 trees were planted at schools and playgrounds throughout the Town. As is our policy, diversified species were planted including Maples, Oaks, Linden, Locust, Elm, Willow and

Crabapple trees. Several good sized trees were purchased by the Mystic Valley Gas Co., New England Telephone & Telegraph Co. and an oil company for planting on town property adjacent to their land or on public ways this year.

On the negative side, we lost 276 trees during the year, of these 120 were large trees over 10 inches in diameter. We continue to note the accelerated loss of our Sugar Maples, 65 of these large trees were lost. Dutch Elm Disease also increased alarmingly, though we have relatively few Elms, the ones we do have are concentrated in parks and other sensitive areas.

Another major factor affecting our removal program is disposal. Due to unavailability of land and air pollution requirements, we must dispose of our diseased logs out of town; this has caused a major increase in cost of operations.

To protect our trees and the people of the Town, we continued our policy of spraying trees only when absolutely necessary with material of low toxicity and short residual life. We also sprayed weed killer to control poison ivy and other toxic weeds.

The Town garden between the Town Hall and Robbins House area required extensive seeding to renovate areas affected by winterkill. This beautiful area received recognition as the cover picture for the New England Telephone & Telegraph "West" directory last year. We were pleased with the enthusiastic acceptance of our Arbor Day program by the school children. With the co-operation of the Garden Club 500 pine seedlings were distributed this year.

Our park and playground system was utilized for organized sport as well as neighborhoood use. We provide service such as marking and maintenance for over 28 areas used by all school teams in varsity, J.V., Junior High and Elementary programs in baseball, football, soccer, tennis, field hockey, softball, track and others; as well as, Arlington Catholic baseball, American Legion baseball, an expanded Little League program, softball for 16 men and 8 women's teams. We provide service for two pop Warner football leagues along with an adult tag football program and the summer Recreation Division playground program. Of course, one of our most important and difficult jobs is providing daily maintenance to all areas for neighborhood use.

The high use factor at Warren A. Pierce Field, Spy Pond Field, Summer Street, North Union and Fowles Pond Playgrounds has caused problems. Extra effort in both time and money must be expended in an effort to make these fields serviceable. We have completed the fencing of the tract at Warren A. Peirce Field as well as replacing the baseball grandstand at this area.

One of our positive, though expensive programs is the 22 floral islands the park crew plants and maintains. We are pleased with this program with the beauty it supplies to our environment.

We maintained the tot lots, basketball courts, tennis courts and other special facilities as required. The basketball courts at Robbins Farm and Parallel Playground were resurfaced this year.

Skating areas were maintained at Robbins Farm, North Union, Waldo Road, Parallel Street, Grove Street and Hills Pond. Asphalt basketball and tennis areas receive multiple use at all skating areas excluding Hills Pond.

Vest pocket areas such as Cooke's Hollow and the small park at Massachusetts Avenue and Mystic Street were improved. Benches and additional planting were added here. These areas along with the Town gardens provide an excellent passive recreation service, particularly for our older citizens.

Needless to say we are not completely happy with our system. We need to improve our existing facilities, add more where necessary and improve our standard of maintenance. Concern for this is shown in the recent Open Space Study as well as the report of the Recreation Facilities Committee. We must, however, expand our maintenance staff to achieve these goals.

PROPERTIES DIVISION:

This division is charged with the care and maintenance of all public buildings and school grounds.

This includes forty buildings from Arlington High School to the bathhouse at the Reservoir Beach.

With close to 10,000 day students, 1400 night students, the Middlesex Community College along with extensive use of our public buildings by the Recreation Department, P.T.A., Boy Scouts and Girl Scouts, official and citizen committees this task is formidable. Most of our schools, the Town Hall as well as the meeting rooms at the Robbins and Fox Libraries are in constant use. The Town Hall auditorium was used 100 days in 1972 for both official Town and private functions. The growing trend of night and off hour use of our buildings is welcomed, but it has caused the need for additional man hours and expenses to maintain these buildings.

Our major problems continue to be older buildings, filled to capacity, being used above the intended use at their time of construction, vandalism and general maintenance on our older buildings.

Our buildings range from beautiful and timeless classic construction of the Robbins Library and Town Hall to the classless emergency construction of our temporary school buildings. Included in this range is the Jarvis House and Robbins House of historic value, our late 19th century schools, the modern schools such as the Thompson, Dallin and Stratton.

Major projects included the continuation of our fire protection program. In 1972 our program included work at the Junior High East, Thompson, Cutter and Senior High School. We have also bid and contracted for work at the Bishop, Brackett and Dallin Schools as well as Mount Pleasant Cemetery.

Learning Centers were constructed at the Cutter, Locke, Hardy, Bishop and Thompson Schools upon the request of the School Department.

The improvement of our program to counteract vandalism continued. We replaced all the window sash on the playground side of the Locke School with aluminum sash glazed with unbreakable Polycarbonate sheets in lieu of glass. Polycarbonate "Lexan" was used wherever possible to replace broken windows.

Improvements in our exterior lighting program continued with additional lighting installed at the Hardy, Crosby, Central, Locke, Peirce, Ottoson Junior High, Junior High East, Arlington High and Bishop Schools as well as the Town Hall area, Public Works Department, Park garage and Hibbert Playground. We plan to continue this program.

Major renovations were completed at the Hardy School. All classrooms were painted, lighting was improved throughout, roof repairs and structural repairs were made in several windows. We are planning to program all our schools into a major renovation program.

Almost complete renovation, both exterior and interior, was carried out at the historic Jarvis House. This small building is one of our most attractive.

Our exterior waterproofing program was completed on all our school buildings as well as exterior painting at the Robbins House, Junior High East, Parmenter and Arlington High School exclusive of the "A" building.

It must be remembered that as maintenance responsibilities imply much of our work is straight maintenance, the vast percentage of our work involves such work as plumbing, heating, electric, roof, carpentry, furniture and equipment repairs throughout our buildings.

Included in our work is probably one of the most difficult and demanding day to day maintenance tasks; namely, custodial duties. The custodial staff

must perform daily housekeeping duties of a repetitive nature, communicate with many people and perform special tasks as needed. They receive little recognition for their most important duties. We are fortunate in having an excellent custodial staff in the Town of Arlington.

During the year I had the opportunity to work with various committees and citizens groups such as the Spy Pond Committee, Conservation Commission, Recreation Facilities Committee and others. I would thank these groups for their advice and co-operation throughout the year.

In conclusion, I would like to thank the members of your Department, the employees of the Department of Properties & Natural Resources and all the Departments of the Town who have been so willing with advice and assistance in this past year.

Cemetery Commissioners

The Cemetery Commissioners herewith submit their Annual Report for the year ending December 31, 1972.

Mr. Daniel M. Hooley was reappointed in December for a three year period.

The Cemetery Department provided for the care and operation of the 51 acre Mount Pleasant Cemetery as well as the Old Burying Ground on Pleasant Street thoughout the year.

The Commissioners have become increasingly concerned with the shortage of burial space in Mt. Pleasant Cemetery and the limited expansion prospects at the existing site. In previous years we initiated changes in cemetery regulations with the goal of extending the life of the present area. In 1972 we requested permission to expand into the Meadowbrook area to meet the interment requirements of Arlington citizens in future years.

Following the results of an "Open Space Study" and recent changes in the "Hatch Act" concerning wetlands it seems unlikely the Meadowbrook area will be available. With this factor recently recognized we must act promptly and judiciously to provide for future cemetery needs.

There were 436 interments in Mt. Pleasant Cemetery in 1972.

During the year we did preparatory work for laying out of lots on the west side of Mill Brook. Landscape areas were converted to burial lots due to the pressing need.

A major problem in the past year has been vandalism. We have had two forced entries, two attempted arson and two major occasions of malicious vandalism. This vandalism cost over four thousand dollars. Added to this is a consistent problem of desecration of grave stones etc.

Out of necessity we are planning to install a fire detection system and intrusion alarm in 1973.

We thank Town Manager Donald R. Marquis and all Department Heads for their help and co-operation, also Superintendent Edward C. Preston and all employees of the Cemetery Department for their co-operation during the year.

The following are the receipts for 1972:

and the same and the same to the same same same same same same same sam	- J / L .
Sale of Lots and Graves	\$11,710.00
Foundations	3,632.30
Opening Graves	24,800.00
Miscellaneous	5,301.00
Annual Care	2,916.60
Perpetual Care	13,165.00
Income from Funds	54,436.02

Conservation Commission

The Conservation Commission had a year of varied activities, emphasizing concern for the preservation of Arlington's limited natural resources.

The 1972 Town Meeting authorized the purchase of approximately 42,600 square feet of land on Forest Street near the Winchester town line for Conservation purposes. This land was purchased by the Town during the year. This land is critical for retaining ground water from the surrounding area, thus alleviating flooding of nearby properties. The possibility of developing skating facilities and environmental education programs are some of the recommendations for this area. The acquisition of this land is part of a continuing program of the Commission in adding to Arlington's open space inventory.

The town meeting authorized funds for the second phase of development of Cooke's Hollow. Due to severe rainstorms, some erosion of the banks of the Mill Brook has taken place and construction of the park has been delayed until the erosion control measures can be completed. The Town Engineer and the Director of Properties and Natural Resources have given valuable assistance in resolving this problem. The completion of Cooke's Hollow project is contemplated by the end of 1973. Cooke's Hollow is the first step in the development of the Mill Brook linear park. We appreciate the efforts of the Garden Club and other interested citizens in their continued support for this project.

The Commission filed an application with the Ford Foundation for a \$5,000 matching fund grant for a study of the Town's open space requirements passed by 1972 Town Meeting. The grant was approved by the Ford Foundation. The first phase of the Open Space Study has been completed and the results of this study are being utilized by a number of town agencies.

During the year the Commission met with the Board of Selectmen, Town Manager, Redevelopment Board, Department of Planning and Community Development, Department of Properties and Natural Resources, Town Engineer, and other boards and organizations. We acknowledge their assistance which has been substantial and constructive and look forward to their continued support in the future.

The Commission also participated with Conservation Commissions of six other communities and the Mystic River Watershed in sponsoring two presentations by the Boston Transportation Planning Review staff covering the report of the Northwest Corridor concerning the Alewife Subway Extension and the Western Connector.

The Massachusetts Legislature passed the Wetlands Protection Act - Chapter 784 of 1972. This law requires Conservation Commissions to hold public hearings on any proposed project that covers removing, filling, dredging, or alterations of any bank, marsh, meadow, or swamp bordering any existing creek, stream, pond, or lake, or any land under said water or any land subject to flooding without filing a written notice of intention to so remove, fill, dredge, or alter, including such plans as may be necessary to describe the proposed activity and its effect on the environment. The first filing under this Act was made by the Conservation Commission covering the erosion control construction at Cooke's Hollow.

The Commission expresses its appreciation to the Arlington Conservation Association members for their continued support to the Conservation Commission. Three members of the Commission resigned during the year - Charles J. Ahern, Harry H. Baldwin IV, and Philip S. Thayer, a founding member of the Commission who has remained as an Associate member giving us the benefit of his interest and energy.

PUBLIC SAFETY

Fire Department

As Chief of the Arlington Fire Department I submit my fourth Annual Report for the year ending December 31, 1972.

The uniformed force consists of 121 men: the Chief of Department, 5 Deputy Chiefs, 10 Captains, 20 Lieutenants and 85 Fire Fighters and 1 Chaplain. The Department has a Master Mechanic, Doward A. Barter; a Principal Clerk and Typist, Margaret Harrington and a Clerk and Typist, Eileen Provenzano. Deputy Chief Charles F. Mahoney is in charge of personnel.

The Fire, Police and Civil Defense Communications System is maintained by Nicholas J. Bucciero, Assistant Superintendent, Leo Canniff, Signal Maintainer, and a Clerk and Typist, part-time.

July 18,1972

APPARATUS

In May 1972 bids were opened on a new pumping engine for which money was appropriated at the 1972 Annual Town Meeting. The successful bidder was the Maxim Fire Apparatus Corporation of Middleboro, Massachusetts. Delivery is anticipated in the early spring of 1973. I am sure that it will be a unit that the Town of Arlington can take pride in for a number of years.

REPAIR OF APPARATUS

With the addition of a man in the Maintenance Division during 1972 the work load has evened out more and we are able to make permanent and lasting repairs rather than temporary. We will be establishing a thorough preventive maintenance program which will cut down on the critical out of service time that accompanies major repairs. Most of our motor fire apparatus has, or is fast approaching the time of replacement thus necessitating almost constant maintenance.

FIRE STATIONS

All three (3) stations were constructed in the 1920's and thus coming close to being fifty (50) years old. Although their present locations have served all of Arlington well over the years, if a major redevelopment of Arlington Center takes place, some thought should be given to updating the service to the people of the East Arlington and Morningside areas.

REPAIRS TO STATIONS

Due to the age of the stations a great deal of maintenance is required to prevent major deterioration both inside and outside. With 1973 Town Meeting approval we will be pointing and waterproofing the exteriors of all three (3) stations, along with complete repainting of all exterior finish during the next fifteen month period. It is further recommended that this type of maintenance be constantly kept up.

The anticipated structural changes at Highland Station, 1007 Massachusetts Avenue have been discarded as being impractical at this time. We shall endeavor to build specifications for a piece of equipment to fit the existing building.

TRAINING

Rapid and constant technological advances in almost every area of our lives requires an equally rapid advance in the area of fire fighting and fire prevention. To this end we are continuously striving to keep this department abreast of all such developments.

A number of men from this department are availing themselves of the Fire Science courses at Massachusetts Bay Community College in Watertown to further their education.

Our In-Service department training program is constantly being evaluated and upgraded for modern techniques. Captain James Kelley is the department Training Officer in charge of this program.

CIVIL DEFENSE

This division of the Fire Department continues to operate under Public Law 85-606. This is the program which reimburses the town one-half of the cost of personal services for employees involved in Civil Defense. Arlington continues to be certified by the State and Federal government as an eligible participant. In 1972 approximately \$2500 was turned over to the Town Treasurer as a result of these payments.

The local government radio system is supervised and maintained by this division.

Lieutentant Leonard Ouellette is the coordinator between the Police Department and the Auxiliary Police officers.

Deputy Chief Irving Proctor is the coordinator between the Fire Department and the Auxiliary Fire Fighters.

Captain Warren French was appointed Civil Defense Director on November 5, 1972 to replace Captain Edward Lennon.

In cooperation with the Massachusetts Civil Defense Agency this department participated in several exercises testing the preparedness of the program.

FIRE PREVENTION

A mercantile in-service inspection program was instituted on June 12, 1972 and coordinated by Captain Edward A. Lennon, Fire Prevention Officer.

Four engine companies were on in-service inspection duty daily Monday through Friday.

The principal value of this inspection work is the knowledge obtained of the various structural features of the building, number and locations of means of ingress and egress, protective facilities (standpipes sprinkler systems), contents of material stored and its potential fire dangers, proper methods of extinguishment of same along with the correction of existing unsatisfactory conditions.

Diagrams and notes were correlated and put on master file cards to be used for follow-up inspections and training. The information was incorporated into the training lesson manual and discussed at length by all officers and fire fighters. Through such an inspection definite pre-plans for effective fighting of fire can be laid out and studied by all members of the

department due on the first alarm. The claim has been made that most of the loss of life and injury to fire fighters would have been prevented by inspection work of this kind.

Semi-annual inspections were made of all townowned buildings in conjunction with the insurance program by the Deputy Chiefs. Officers and fire fighters made periodic inspections of places of business, public buildings, schools, hospital, convalescent homes and places of assembly. Records of existing conditions, with the date of correction, were kept.

Captain Edward Lennon, Fire Prevention Officer, inspected oil-burning equipment in addition to flammable installations and storage equipment. He, also, supervised the annual inservice hydrant testing programs.

Department of Police

I herein submit my sixth annual report for the year ending December 31, 1972.

As of December 31, 1972, the department had 86 police officers, the normal complement is 90 officers, including all grades, which is a ratio of one and sixty-eight hundredths (1.68) per thousand based on a total population of 53,524.

I wish to publicly acknowledge my sincere gratitude, and to commend the members of the Auxiliary Police for their unselfish devotion to duty through their various activities in the past year.

I extend my sincere appreciation to the Honorable Board of Selectmen, to our Town Manager, Donald R. Marquis, to the members of the Police Department, and to all Heads and Personnel of other Town agencies for their cooperation and support during the past year.

Respectfully submitted,

Ferdinand A. Lucarelli Chief of Police

ANNUAL REPORT OF THE ARLINGTON POLICE DEPARTMENT OUR AIM IS TO SERVE YOU

The department protects the right of all persons within its jurisdiction to be free from criminal attack, to be secure in their possessions, and to live in peace.

The department serves the people of Arlington by performing the law enforcement function in a professional manner, and it is to these people that the department is ultimately responsible. Equally important is the obligation and desire of the department to continue its work in the prevention of crime.

PUBLIC SERVICE.

Often, because there are no other public agencies available, the public relies upon the police department for assistance and advice in many routine and emergency situations which develop in our society. For this reason, and because there is frequently a potential for crime, the department regularly responds to incidents where it is not contemplated that an arrest will be made.

Saving lives and aiding the injured, locating lost persons, keeping the peace, and providing for many miscellaneous needs are basic services provided for by the department. To satisfy these requests, the department responds to calls for service and renders such aid or advice as is necessitated or indicated by the situation.

HOME PROTECTION SERVICE

As part of our patrol service, we conduct home protection by frequent checking of all homes, where the owners are away and have notified us to that effect.

JUVENILE DIVISION

Our juvenile division is staffed by able and competent officers who investigate, evaluate, and process complaints and offenses in which juveniles are involved. They investigate domestic problems, wherein child neglect situations occur, and make referrals to various social agencies covering the subject matter.

DETECTIVE DIVISION

Our detective division conducts follow-up investigations initiated by the uniform division, and which are of an extended nature. They handle all serious crimes committed within the community. They maintain up to date records of all known law breakers, and furnish such data to the patrol division. They also coordinate police activities with other police agencies and the courts.

RECORD BUREAU

Records are maintained by the department in compliance with statutes, as a public service, as an investigative and administrative aid, and to provide statistical data. Department records are confidential except to other police departments, or other qualified public agencies. The department will provide for a fee, crime and traffic accident reports and photographs, to crime victims, and parties involved in traffic accidents.

TRAFFIC ENFORCEMENT AND MAINTENANCE DIVISION

This bureau's personnel assist in making traffic studies, preparing traffic counts to provide the smoothest and safest traffic flow, conducts radar patrol in an effort to lower the number of automobile accidents in the Town.

Officer Joseph Steele, Radar

To facilitate the safe and expeditious movement of traffic, the department must enforce traffic laws, investigate traffic accidents, and direct traffic. To enforce compliance with traffic laws, and to develop driver awareness of the causes of traffic accidents, the department appropriately warns, cites, or arrests traffic law violators.

Traffic accidents are investigated to protect the rights of the involved parties, to care for the injured, to determine the cause of the accident, so that methods of prevention may be developed, and to gather necessary evidence to prosecute the violator.

ENFORCEMENT OF NARCOTIC DRUG LAWS

It is the objective of the department to enforce all Federal and State statutes which prohibit the possession, use or traffic in narcotics, non-prescription drugs, and other controlled substances. Through a combination of aggressive enforcement and public education, the department seeks to prevent and deter the use and possession of such drugs or other controlled substances.

In the year 1972, there were 57 drug related arrests made, as opposed to 36 in 1971. Of the 57 arrested, 9 were females and 29 were non-residents. None of the arrests involved heroin.

In 1972, there were 7 holdups committed in drug stores in Arlington, this was an increase of 4 over 1971. Drug store holdups, which have increased greatly nation-wide, serve two purposes, to provide persons committing same with narcotics, barbiturates and amphetamines, either for their own use or to sell to dealers when the supply in the streets is short, and to provide addicts with money to purchase drugs.

ON THE JOB TRAINING

An officer's training continues after his initial eight weeks training following his appointment and before being assigned to street patrol. This department has an In-Service training program which began one year prior to the Commonwealth of Massachusetts enacting legislation which makes it compulsory for all police departments to conduct In-Service training for their personnel yearly.

In addition to the In-Service training program, all Sergeants, Lieutenants and Captains have successfully completed a three week course in Command Training, conducted by Babson University under the auspices of the New England Chief's of Police Association.

Members of our detective division have completed courses in Crime, Scene Search, Narcotic Drugs, Electronics Surveilance in Organized Crime, courses on photography as applied to criminal investigation.

Crime Scene Search Training School Inspector Dominic J. Santosuosso and Inspector William Pease

At present about 51 percent of our department is enrolled in law enforcement related subjects towards earning an Associate Degree in Law Enforcement at Northeastern University and several community colleges. Our Armorer and Firearm instructor attend a yearly refresher course sponsored by the F.B.I. All

members of the department must qualify at least once a year in the use and handling of all protective equipment maintained by the department.

Attorney General Organized Crime, Framingham, Mass. Inspector Dominic J. Santosuosso and Chief Ferdinand Lucarelli Nov. 27, 1972 to Dec. 8, 1972

ORGANIZATION

Chief of Police	1
Captains	2
Lieutenants	8
Sergeants	12
Patrolmen	67

BURGLARY—PREVENTION

The department has a program known as Operation Identification to discourage burglars. It is designed to discourage thefts and burglaries by uniform identification of valuables and showing potential thieves that property has been marked for identification and can be traced. The department has engraving tools available to loan to the people of Arlington for engraving Social Security number and/or license number of the person on the valuables, such as radios, TV sets, cameras, typewriters, etc. The person will list items marked on duplicate forms provided by the department, one for the department and one for his own use. On returning the tool, two stickers will be given to the person to be placed on doors or windows of residence, notifying all that valuables have been marked. The tools are available in the Record Room from 8:00 a.m. to 4:00 p.m., seven days a week. If all tools are out, the person who calls will be put on a waiting list and notified when the machine is available. We trust this program will be of value to the residents of Arlington and to the department.

To curb crime in general, we have also implemented the night detective force. These men are on duty between the hours of 5:00 p.m. to 1:00 a.m. They patrol high crime areas, residential areas and make on the spot indepth investigation of burglaries, in addition to their other duties. We had 382 burglaries in 1971 and 293 burglaries in 1972.

TRAFFIC ENFORCEMENT

	Accidents	Citations	Parking
1971	1,073	2,573	10,904
1972	1,085	4,355	13,799

Selective traffic enforcement means inforcement measured by the police which is proportional to the traffic accident experience with respect to time, place and type of violation. To this end there has been a maximum effort made on selective enforcement. Officers are assigned to radar surveillances in accident prone locations.

SOMETHING NEW

(Staff photo by Eric Weiss)

FEDERAL GRANT

A federal grant valued at \$3,500. was awarded to the Arlington Police Department this year under the Governor's Highway Safety Program at no cost to the town. The equipment included two television type monitors, a camera and a tape recorder. The equipment will be used by the police for four primary purposes, and a variety of secondary purposes. They are as follows:

- 1. In selective traffic enforcement to observe and correct traffic patterns.
- 2. To teach safety to children in the Arlington school system.
- 3. To photograph violators in accident prone locations.
 - 4. In the police In-Service Training program.
 - 5. In presenting evidence in court proceedings.
- 6. By the detective division on surveillances and related work.

SAFETY OFFICER

One of his duties is supervising the School Safety Program. He has charge of 22 school crossing supervisors and 300 patrol leaders. The patrol leaders are lectured on the fundamentals of pedestrian safety. He has established a working liaison between the police, the supervisors, the patrol leaders and the schools for the benefit of all students in the town of Arlington. At the end of the school year, one patrol leader from each school is selected by his peers to take a trip to Washington D.C. at no expense to the Town. The remaining patrol leaders are invited to view an appropriate film at the Regent Theater.

The Safety Officer lectures in the schools on seasonal safety precautions to follow in the home, while on route to and from school and in the school building itself. He also conducts a bicycle rodeo. This year he presented a talk explaining safety bicycle rules and

gave out pamphlets illustrating safe bicycle driving today. The children go through a riding course and are given applications for license plates. More than 150 bicycles were checked including such items as brakes, handlebars, seats, tires, wheels and spokes. Bicycles needing repair were brought to the attention of the children so that they could inform their parents. He also gives lectures to the Parent Teachers Association, elder citizen groups, Telephone Co. and Edison Co. employees, and others by request.

Lieutenant Arthur G. Guarente, present safety officer, is a member and past president of the Massachusetts Safety Officers League, which is made up of more than 200 safety officers from the surrounding cities and towns.

POLICE OFFICER OF THE YEAR BY ARLINGTON KIWANIS CLUB

An award issued for meritorious service for the year of 1971 was presented by Mr. David Freedland, President of the Arlington Kiwanis Club, to Officer Arthur McLean, Jr.

COMMENDATIONS FOR THE YEAR 1972

The following men were cited for exceptional arrests and were commended by Chief F.A. Lucarelli: Sergeant William Carroll Sergeant James Casali Sergeant Gerald Connors Officer George Alexie Officer Robert Burns Officer Ferdinand Carangelo

Officer Anthony Chella
Officer James Crocker
Officer Lawrence Dennen
Officer James Kearns
Officer James Mangiacotti
Officer William Nuttall
Inspector William Pease
Officer Michael Polston
Inspector Dominic Santosuosso
Officer Ronald Tocio

However dedicated the members of the department may be in the performance of their duties, we must urgently request citizens to assist us by reporting any crime they observe being committed. Do not delay, do not look for an officer, go to the nearest telephone and dial 643-1212, or ask the operator to call the police for you. Be certain to give the location where the police are needed. Furthermore, do not be offended if you are questioned by a police officer as to your identity, and business in the area you may find yourself in, as it is the officer's assignment and routine duty to question you under certain circumstances. Remember, his job requires that he risk his life, if necessary, to protect you. Law abiding persons have nothing to fear from the police.

Dog Officer

I herewith submit my report as Dog Officer for the Town of Arlington for the year ending December 31, 1972.

At this time, I wish to express my thanks to you and the Board of Selectmen for the advice and assistance given to me in the settlement of controversies arising between the dog owners and complainants.

I would also like to take this opportunity to thank Police Chief Lucarelli, his department and the office of

the Town Clerk for the spendid cooperation given me through the past year.

In conclusion, I gratefully acknowledge the prompt attention given by the dog owners of Arlington to the licensing of their dogs this year, also abiding by the Leash Law.

Respectfully submitted,

Samuel F. Femia Dog Officer

PUBLIC SCHOOLS

School Committee

Shortly after the beginning of the year, two veteran School Committee members retired — Arthur F. Coughlin, Jr. (18 years) and Claire C. O'Neil (6 years). Although they have already been officially thanked and presented mementoes of their years of service, we want to take this opportunity to remind Arlington of the untold hours of unremunerated and often unknown and therefore unappreciated public service which these two people literally donated to Arlington and its youth. We know that we are joined by all our fellow townspeople in saying "thanks".

Whereas in 1971 much of the attention of the Committee was given to organization and staffing of the central administration, during 1972 emphasis was on the next administrative layer.

The Superintendent has almost completed a revamped structure. Most of the change has been on redefining responsibilities, although we did find it necessary in order to adequately provide a modern educational program, to add a few new positions. Altogether there are some 15 new faces in important administrative positions. Finding, interviewing and hiring these men and women has been exhausting, challenging, sometimes tense and divisive, but overall a most rewarding experience. Both by promotion from within the system and by bringing in "new blood" where that seemed appropriate, we believe we have assembled the most talented and capable administrative team which the Arlington School System has had for many years. We expect their dynamism and drive for excellence to be a major force in the improvement of education in Arlington during the next several years.

During the year, the Committee has taken a number of steps to bring our rapidly escalating budget under control. First, we have begun what is hoped will be a series of shaved programs with nearby towns. As of now, we have two such cooperative programs in special education. None of the cooperating towns have had enough students to fill classes up to an economical size, and the cost of tuition elsewhere were virtually prohibitive. By pooling students each town has been able to produce savings in staff and other support costs.

Second, we are continuing to reduce the number of elementary classroom teachers as elementary enrollments continue to fall slowly. More could have been done in this area if boundary lines between

William A. Carey, Jr.; Charles Lyons; Robert H. Murray; Eugene J. Kirby. Sitting: Mrs. Dorothea W. Stein; Richard Kraus, Chairman; Mrs. Doris M. Cremens, Vice-chairman; Mrs. Ann Klein (Thomas D. Kenna, Jr. not present)

elementary districts could be moved from year to year. At the present time, the Committee feels such action to be politically impossible.

Third, we are continuing a gradual introduction of planned programmed budgeting concepts. Over the next few years, this approach should enable us to know much more precisely what various programs alternatives cost, thereby enabling rational choice if the most economical approach seems educationally desirable.

During the year, preliminary plans were completed on expansion and renovation of both Junior High Schools. Town Meeting voted favorably on both plans providing construction money for the Ottoson and money for final plans for the East. Completion of these two projects will, for the first time in a very long time, provide sufficient Junior High space and the educational program outlined for the renewed facilities is an exciting mixture of new and old which promises the youth of Arlington an even more rewarding Junior High experience in the years to come.

The High School has been a major concern during 1972. In response to a variety of problems and concerns the Committee has appointed a new administrative headmaster, added four part-time assistant housemasters, authorized a new schedule designed to allow expansion of the curriculum, approved innovations in a number of departmental curricula, approved the end of the so-called

"modified open-campus proposal" and added a "Flexibly-Scheduled Schoolday Coordinator" to carefully plan and arrange productive ways in which students can invest their spare time. Many more items should be added to this list, but space limitations do not permit it.

Evaluation of the High School took place in 1972. The school received a conditional two-year accreditation. Many things need improvement and most are currently being improved. But the key to it all is space. Without major expansion and regovation, most of the current activity will be for naught.

Current educational specifications for that expansion and rennovation call for an educational program equivalent to that which most of the surrounding communities can already provide and an administrative arrangement into six smaller units (or houses) so that we can reap some of the social and discipline advantages of smaller schools. Without this renovation and expansion we can only foresee an increasing effort being required to maintain a program in which discipline problems increase and educational quality decreases each year.

In the elementary schools, more variety of educational technique continues to be introduced, in a continuing effort to meet the individual needs of the students. In addition, there is a growing need for specialists to supplement the work of the classroom teacher especially in the area of reading. Consequently, as we end the year preparing the 1973 budget we have found it necessary to considerably expand both the traditional reading program and the newer learning disabilities program.

Earlier, we noted efforts to reduce educational costs. Unfortunately, we find in preparation for the 1973 budget that those efforts have been completely swamped, to some extent by the increasing needs just mentioned, but even more by the necessity to fund programs mandated by the Great and General Court. The number and expense of such mandates seems to increase with each passing year. Unless this trend reverses or unless the legislature begins to fund the programs it mandates, even such tenuous local budget "control" as now exists will simply be a fiction of the past.

On a more pleasant note, we want to express our grateful appreciation to our fellow townspeople for the support which they have given to public education in Arlington, to our staff and faculties for their unstinting service to the children of this Town and to those hundreds who have served as volunteers in the much appreciated effort to enrich our educational offering. Finally, a special thanks and best wishes to the following staff who have retired during the current year:

Margaret Burnham Louise Briggs Ruth Downs Dorothy Frost Clarice Gott Elsie Greenwood Mary Kiley Mary Lane George Lowder Doris McCarthy Edward Pine Anna Scannell Pauline Wade

January 15, 1973

Superintendent of Schools

Superintendent of Schools William T. Gibbs

Broad changes in personnel, organization and programs were instituted in the Arlington Public Schools during the past year with a view toward individualizing, personalizing and humanizing the total instructional program. Firm initial steps have been taken in revising the Table or Organization including the entire administrative structure. Dr. Jerry Trow was appointed to fill the vacancy of Executive Director of Pupil Personnel Services, and Mr. Raymond Bohn was appointed to fill the expanded role of Supervisor of Special Education. In view of the recent, extensive changes required for students with special education needs these appointments are vital ones in our revised administrative organization.

The principalship of the Central School, (formerly Industrial Arts School), was given to Mr. Ned Schofield, and this role, too, was expanded to include supervision of our junior high satellites at Spy Pond and Park West.

After extensive screening processes, involving parents, professional staff and students, George F. Fusco, was elected Administrative Headmaster at the Senior High School to replace Mr. Raymond S. Locke; Edmund R. Mahoney became Administrative Principal of Ottoson Junior High School, renamed after the

death of Mr. A. Henry Ottoson, who had served as principal since January 1st of 1939. Mrs. Joan Warren was chosen as principal at the Bishop School to replace Miss Elsie M. Greenwood; and Mr. Robert K. Laber was appointed to head the music and dramatics-speech staffs under a new title, Supervisor of Performing Arts, replacing Mr. Donald Sullivan. Mr. Walter Devine was promoted from within the system to the position of Director of Guidance, 7-12; and upon the recommendation of a community-wide advisory committee which met throughout the year to survey the matter of "Maximum Educational Opportunities", Mr. William McCarthy, former coordinator of Distributive Education, became Coordinator of the Flexible Scheduled School Day. With Mr. Fusco's move to Administrative Headmaster, and with the retirement of Mr. George Lowder, two new Housemasters from within the system were elected in Messrs, Richard Hall and Ralph Giobbe, Responding to further administrative needs, four part-time assistant housemasterships were created. Mr. William Nutz was hired from our guidance staff to Co-ordinate Health Education at the secondary level, and Mr. Donald Manning became Department Head in Physical Science.

In order to meet the needs of children with specific learning disabilities, the amount of tutorial time provided was increased substantially and in-service programs for administrators and teachers were conducted to sensitize our professional staff to the kinds of changes which must be accomplished within the content of the total program for slow learners and children who manifest other learning problems. Learning teams have been established in all elementary and secondary schools consisting of psychological service staff, guidance staff, professional teaching staff and administrators in order to provide a team-based approach to providing individualized programs as solutions to the problems of children. At the junior high level guidance personnel work closely with teams of teachers and students within clusters, and the guidance services at the senior high school were decentralized into the four-house structure. A "Move-up" day was instituted so that sixth graders could become familiarized with the junior high school mileau in advance of their actual enrollment. Elementary professional staff are involved with a United States Office of Education standardization program in reading and a National

Assessment Project including nine year olds in a testing program to study math and science learning and instruction over a five year period. Four groups involving a total of fifty-five teachers at the elementary level are engaged in research projects including social studies, health education, science and the problem of reporting pupil progress. A program involving the early identification of learning problems through the testing and screening of kindergarten children was initiated on a pilot basis at three elementary schools. The Arlington Outdoor Education program, an outstanding program which helps to personalize the educational process, was expanded to include all schools this year. In the capable hands of trained professional staff, fifth and sixth graders spend a full week camping in the wilderness. Our satellites at the junior high level have also continued their camping programs, and a survival course including actual outdoor experiences has been instituted at the high school. Three additional programs have been instituted at the elementary level with considerable success: Project Reach — a program which involves high school students tutoring elementary youngsters, Project AFIRE — in conjunction with Tufts' Lincoln Filene Center in advancing democratic human relations, and a Unified Science and Math Project for Elementary Schools in cooperation with the Educational Development Center. Elementary staff have strived to develop a close-working relationship with Arlington's Youth Consultation Center, the Mystic Valley Mental Health Center and MacLean Hospital. In addition, work with the Town Manager's office has been accomplished to identify areas for sidewalk construction and plowing. and additional plans with Town committees has been done, studying the use of playgrounds.

A variety of new programs were instituted at the secondary level, including many course additions at the junior and senior high schools. An interdisciplinary program was developed at the East in the humanities along with a pilot program which involved the training of a team of teachers in methods of instruction for slow learners and students with specific learning problems. The satellite schools added many new courses and developed a strong emphasis in developmental and remedial reading. The name of the Industrial Arts School was changed to that of the Central school and a pilot "middle school" program, grades 5 through 8, was constructed at the Academy Street site including the integration of exceptional children into a number of learning experiences. The Ottoson Junior High School organized itself completely around the cluster concept with four teachers programming one hundred and more pupils in the four major disciplines — English, mathematics, social studies and science. Over sixty new courses of study were added at the senior high level, including an entire new elective program for seniors in English. Psychology, sociology, human growth and development, health education, interpersonal relations, contemporary health programs are many new courses which were aimed at developing a

healthy concept of one's self and of one's society. In the phasing out of our present vocational-technical school, a very extensive program in occupational and career exploratory education was developed in order to help our students more fully comprehend the world of work and to provide for them a marketable skill.

The Report of the Task Force on Educational Goals for the Commonwealth of Massachusetts sets forth a broad set of educational goals which will serve as guides to the local school districts in determining patterns of leadership and service in the decade before us. The newly developed goals and the changes which must be effected to realize their fulfillment depend upon many factors not the least of which is school facilities.

Educational specifications for three building programs have been prepared and submitted to the Massachusetts School Building Assistance Bureau. At this writing, specifications for the Ottoson and for the East have been approved and negotiations with a representative from School Building Assistance Bureau are almost completed regarding the senior high school project.

At the March Town meeting of 1972, favorable action was taken to proceed with renovation and addition of the Ottoson Junior High School, and construction will begin on the site in the early months of 1973. At a special Town Meeting in October, 1972, it was voted to proceed to final drawings on a plan to refurbish and add to the Junior High East, and the March Town Meeting of 1973, will have the opportunity to finalize action which will provide equal educational opportunity at the junior high level throughout Arlington.

The Central Administration Staff, the School Committee and the Permanent Building Committee have taken careful consideration in their planning of Booz, Allen & Hamilton's (Management - Consultant firm of Chicago) extensive report entitled, "A Plan for the Improvement of Public School Facilities in Arlington." As Booz, Allen & Hamilton suggest, the next vital step in providing adequate facilities for the Town is the need to bring senior high school facilities up to standard through a project which would include addition and renovation of the present overcrowded site. A visitation by an evaluating team from the New England Association of Colleges and Secondary Schools, made an in-depth study at the Arlington Senior High School on October 1 through 4, 1972. The visiting team represented a group of thirty-two professional educators from throughout the New England area who reacted to a self-study by our high school professional staff with a view toward making recommendations to the New England Association on the future accreditation of the school. The visiting team, made up of superintendents, college admissions representatives, high school principals and department chiarmen, personnel from the State Department of Education, and high school teachers, made the following recommendations:

"—Building "A" (since it is wholly substandard) be completely rebuilt or completely renovated immediately so that educational requirements of today and the future can be met;

- The present library facilities be upgraded to the level of a modern, adequate media center in terms of both space and materials;
- —Measures be adapted to insure strict and immediate compliance with state safety regulations in respect to location of classroom seating so as to insure free movement through classroom connecting doors; similar measures should insure that furniture is not hindering traffic through corridor door and stairwells;
- —Fire alarm system be improved so that the master control quickly identifies location of fire or false alarm;
- —In units "A" and "B" adequate lavatory facilities be installed;
- —Shower facilities for girls be provided in the physical education areas;
- —Improvements be made in the ventilation adequacy of the overall facilities;
- Improvements be made in the temperature control adequacy of the overall facilities
- —Adequate storage facilities be provided for all teachers;
- —Exposed steam pipes in classroom be covered immediately;
- Repair immediately all leaking steam pipes;
- Permanent measures be taken to correct a possible hazardous water condition in the boiler rooms;
- —Adequate lavatories for teachers be provided;
- —An acoustical ceiling be installed in the student cafeteria."

In a letter dated December 7th from Dr. Richard J. Bradley, Director of Evaluation, Commission on Public Secondary Schools, New England Association of Schools and Colleges, the Arlington Public Schools were informed that "at the November 30 - December 1 meeting, the Commission on Public Secondary Schools voted to recommend Arlington High School for continued membership for a period of two years and to report a special progress report by October 1, 1973, regarding adjustments in the physical plant

with specific emphasis on building "A" and the media center." By a unanimous vote of the Executive Committee of the New England Association the recommendation was acted upon on December 14. The essence of the recommendation for a two year continuing membership is, if the Town does not move to correct the physical plant deficiencies at the school, accreditation by the Association may be withdrawn. At the Annual Town Meeting in March a warrant article may be under consideration allowing the Permanent Building Committee to proceed to final working drawings for renovation and addition of the senior high school.

New laws and regulations for Special Education programs marked 1972. The law required that a complete evaluation of a student's program be undertaken and a program of maximum integration in a regular classroom, wherever possible, should be provided for mentally retarded students. Another major revision in legislation for children with learning problems is the establishment of Chapter 766 (the Daley-Bartley Bill). This bill provides for complete revamping of Special Education, Learning Disabilities, and programs for the Emotionally Disturbed by the fall of 1974. The Pupil Personnel Department is working now to meet the needs of children with specific learning needs. Additional staffing is required in our Speech Program, and the Program for Emotionally Disturbed. In addition, increased tutorial hours for the Learning Disabilities are necessary to meet student needs. A core evaluation involving all students with learning needs, not just those who are mentally retarded, must be accomplished by the fall of 1974. To speed this evaluation process and to provide better instructional services, a Learning Team concept was put into operation this year. This Learning Team is composed of members of the Pupil Personnel staff including Nursing, Psychological Counseling, Learning Disabilities, Guidance and the Program for Emotionally Disturbed along with the regular school administration.

During the year of 1972, more than one thousand students were seen by members of the Pupil Personnel Department for either individual instruction, small group instruction, counseling, testing and evaluation, speech assessment or other related services. This does not include the vast number of students who saw the school nurse for emergency first aid or the hundreds of students who participated in the annual hearing and vision screening examination. The Pupil Personnel Department is one of the largest departments within the Arlington School System. As has been stated, its responsibilities are wide and varied. The department is pressing forward to provide the best services for the students and families in the Town of Arlington.

The past academic year has been one of progress and growth. Many changes were effected to realize

common goals, however, future progress in realizing change is not the exclusive responsibility of the public schools. Overall community concern and involvement including all elements of our society need to serve together to bring about meaningful growth and development.

I would like to extend my thanks and appreciation to all professional staff of the Arlington Public Schools, the public officials, and the residents of the community who have supported education in the past year. I am grateful to the members of the School Committee for its numerous contributions and endless effort to the improvement of quality education in Arlington.

> Respectfully Submitted, William T. Gibbs Superintendent of Schools

ANNUAL TOWN MEETING, MARCH 20, 1972

Note: The following reports of town meetings are condensed from the official reports and indicate actions which bind the town. For information relating to precise wording of each article, the reader is referred to the official town meeting record in the office of the Town Clerk.

The meeting was called to order on March 20, 1972 by the Moderator, Lawrence E. Corcoran, at 8:10 P. M. There were 230 Town Meeting Members present (92% of the total 250). The invocation was given by Monsignor John J. Linnehan, Pastor of St. Agnes Church.

- ARTICLE 1. is the annual town election which took place on March 4, 1972 and is reported elsewhere under "Elections".
- ARTICLE 3. REPORTS. To accept and place on file the reports of the various committees. VOTED unanimously.
- ARTICLE 4. TREASURER: POWER TO BORROW. To authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from time to time in anticipation of revenue. VOTED unanimously.
- ARTICLE 5. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by adding Principal Library Assistant, Grade AG6. VOTED.
- ARTICLE 6. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by striking out \$360.00 and inserting \$600.00 per year additional when assigned as Inspector. VOTED.
- ARTICLE 7. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by deleting Sealer of Weights and Measures, Grade AG 13, and by adding Sealer of Weights and Measures and Coordinator of Consumer Protection, Grade AG 13. VOTED.
- ARTICLE 8. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by deleting Working Foreman Forestry Laborer, Grade MC 6, and adding Working Foreman Natural Resources Laborer, Grade MC 6. VOTED unanimously.
- ARTICLE 9. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by adding Fire Apparatus Repairman, Grade MC 6. VOTED unanimously.
- ARTICLE 10. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by adding Redevelopment Planner, Grade AG 20. TABLED. (See adjourned session 4/5/72)
- ARTICLE 11. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by separating pay schedules of Police and Fire Departments but not the pay. VOTED.

- ARTICLE 12. AMENDMENT TO TOWN BY-LAWS. Schedule A of the Classification Plan as established by Article 7C of the By-Laws, amended by increasing all money figures contained therein by approximately four and one-half percent (4½%) in the annual salary schedules, also merit raises for certain Department heads. VOTED.
- ARTICLE 13. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan and Schedule B of the Pay Plan, as established by Article 7C of the By-Laws, and as amended under any Article of the Warrant, by increasing all money figures contained therein for Grades PF1, PF2, PF3, PF4 and PF5 by approximately six percent (6%).VOTED no action.
- ARTICLE 14. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan and Schedule B of the Pay Plan, as established by Article 7C of the By-Laws, by increasing all money figures contained therein for Grades PF1, PF2, PF3, PF4 and PF5 by approximately six percent (6%). VOTED no action.
- ARTICLE 15. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan and Schedule B of the Pay Plan, as established by Article 7C of the By-Laws, and as amended under any Article of the Warrant, by increasing all money figures contained therein, excluding Police, Fire and Librarians, by approximately six percent (6%). VOTED no action.
- ARTICLE 16. AMENOMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan and Schedule B of the Pay Plan, as established by Article 7C of the By-Laws, and as amended under any Article of the Warrant, by increasing all money figures contained therein for Police Matron, Patrolman, Police Sergeant, Police Lieutenant and Police Captain by approximately six percent (6%). VOTED no action.
- ARTICLE 17. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan and Schedule B of the Pay Plan, as established by Article 7C of the By-Laws, and as amended under any Article of the Warrant, by increasing all money figures contained therein, excluding Police, Fire and Librarians, by approximately seven percent (7%). VOTED no action.
- ARTICLE 18. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan as established by Article 7C of the By-Laws, by adding one percent (1%) additional to annual salary for each five years of service for members of the Police Department. VOTED no action.
- ARTICLE 19. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan, as established by Article 7C of the By-Laws, by adding \$100:to annual compensation of each full-time employee after 10 years service and \$50. for each additional 5 years up to and including 20 years continuous service. VOTED no action.
- ARTICLE 20. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend Schedule A of the Classification Plan as established by Article 7C of the By-Laws, by adding one percent (1%) additional to annual salary for each five years of service for members of the Police Department and Fire Department. VOTED no action.

ARTICLE 21. TOWN DEPARTMENTAL OUTLAYS AND EXPENSES. Reported under "Appropriation Accounts". VOTED.

The meeting adjourned at 11:07 P. M.

ADJOURNED ANNUAL TOWN MEETING, MARCH 22, 1972

The meeting was called to order by the Moderator, Lawrence E. Corcoran, at 8:13 P. M. There were 220 Town Meeting Members present (88% of the total 250).

- ARTICLE 22. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend paragraph 3 of Sub-Section A of Section 11 of Article 7C 5 weeks vacation for employees who have served not less than 20 years. VOTED no action.
- ARTICLE 23. AMENDMENT TO TOWN BY-LAWS. To see if the Town will amend paragraph 3 of Sub-Section A of Section 11 of Article 7C by adding 5 weeks vacation for employees, except librarians and library assistants who have served not less than 25 years. VOTED no action.
- ARTICLE 24. ANNUITY UNDER SECTION 95A, CHAPTER 32, GENERAL LAWS ELIGIBIL An amount equal to one-half employee's annual compensation or \$1400, whichever is less; deducted from this amount shall be an amount equal to any increceived by widow in excess of \$2200 per year. VOTED.
- ARTICLE 27. ACCEPTANCE OF GENERAL LAW CHAPTER 32, SECTION 90A. Town accepts Section 90A of Chapter 32 of the General Laws; sum of \$29,868.17 appropriated. VOTED (Standing Vote, 149 in the affirmative and 40 in the negative).

The meeting adjourned at 11:25 P. M.

ADJOURNED ANNUAL TOWN MEETING, MARCH 27, 1972

The meeting was called to order by the Moderator, Lawrence E. Corcoran, at 8:12 P. M. There were 230 Town Meeting Members present (92% of total 249).

- ARTICLE 2. Taken from table and the following appointed Measurers of Wood and Bark: Patricia Fitzmaurice, 17 Lakeview, John Wilfert, Jr., 19 Windmill Lane and Elbridge Johnson, 23 Pawnee Road. VOTED.
- ARTICLE 28. Appropriation of \$8,554. for extension of Sewerage System. VOI
- ARTICLE 29. Appropriation of \$18,926. for extension of Water Mains. VOTED.
- ARTICLE 30. Appropriation of \$8,376. for extension of Storm Drains. VOTED.
- ARTICLE 31. Appropriation of \$25,000. for construction and installation of Sidewalks and Edgestones. VOTED.
- ARTICLE 32. Appropriation of \$30,000. for reconstruction and maintenance of Permanent Sidewalks and resetting of Edgestones. VCTED.

- ARTICLE 33. Appropriation of \$161,000. for resurfacing and reconstruction of streets.
- ARTICLE 34. Appropriation of \$41,400. Chapter 90 Streets. VOTED. (Standing Vote, 202 in the affirmative and 8 in the negative).
- ARTICLE 35. Appropriation of \$64,200. Chapter 90 Streets. VOTED unanimously.
- ARTICLE 36. Appropriation of \$31,000. for construction and installation of Sidewalks and Edgestones. VOTED.
- ARTICLE 37. PETITION TO THE GENERAL COURT TO AMEND BOARD OF SURVEY ACT by deleting the words "water pipe or lamp" and inserting "or water pipe". VCTED unanimously.
- ARTICLE 38. Appropriation of \$11,500. for improvement of volume and Pressure in the Water System. VOTED.
- ARTICLE 39. LAYING OUT OF SHELLEY ROAD. DEFEATED.
- ARTICLE 40. LAYING OUT OF DRAKE ROAD. VOTED. (Standing Vote, 166 in the affirmative and 47 in the negative).
- ARTICLE 41. LAYING OUT OF BRUNSWICK ROAD. DEFEATED.
- ARTICLE 42. APPROPRIATION CONSTRUCTION OF WAYS \$33,300. for Drake Road.
- ARTICLE 43. EASEMENTS IN LAND. VOTED unanimously.
- ARTICLE 44. LAYING OUT OF EPPING STREET. VOTED unanimously.
- ARTICLE 45. APPROPRIATION CONSTRUCTION OF WAYS DEVELOPER STREET. VOTED unanimously.
- ARTICLE 46. Appropriation of \$16,296. for Town's share of operating and maintenance costs of the Regional Vocational Technical School. VOTED.
- ARTICLE 47. OPPOSITION TO LEGISLATION BINDING ARBITRATION. To oppose legislation which will be before the 1972 Massachusetts General Court whereby mandatory binding arbitration in the resolution of the employee collective bargaining would be imposed upon the Town Meeting. VOTED.
- ARTICLE 48. APPROPRIATION HOUSING CODE HANDBOOK. TABLED (See adjourned meeting 4/5/72).
- ARTICLE 49. APPROPRIATION OUT OF STATE TRAVEL. Four Thousand Dollars (\$4,000.00) for out of state travel to be expended under direction of Board of Selectmen and Town Manager. VOTED unanimously.
- ARTICLE 50. APPROPRIATION PAYMENT OF WELFARE CLAIMS. Three Thousand One Hundred and Twenty-nine Dollars (\$3,129.00) to pay any and all proper claims and charges of public welfare program incurred prior to July 1, 1968. VOTED.
- The meeting adjourned at 10:55 P. M.

ADJOURNED ANNUAL TOWN MEETING - APRIL 3, 1972

The meeting was called to order by the Moderator, Lawrence E. Corcoran, at 8:15 P. M. There were 231 Town Meeting Members present (92% of the total 251).

ARTICLE 25. ACCEPTANCE OF GENERAL LAW - CHAPTER 32, SECTION 90D. Taken from the table. WITHDRAWN.

ARTICLE 26. ACCEPTANCE OF GENERAL LAW - CHAPTER 32, SECTION 90C. Notice of reconsideration served. (See adjourned session 4/24/72)

ARTICLE 51. APPROPRIATION - "DEMOUNTABLE CLASSROOMS" OR OTHER CLASSROOM SPACE. WITHDRAWN.

ARTICLE 52. EMPLOYMENT OF COUNSEL FOR SCHOOLS. WITHDRAWN.

ARTICLE 53. AUDITOR'S REPORT

I have examined the books and accounts of the Trustees of the Elbridge Farmer Fund for the year ending December 31, 1972, and find that the report of the Trustees for that year showing income of \$2,581.53, Disbursements of \$2,578.00 and balance of Undistributed Income on December 31, 1972 of \$3.53 fairly represents the transactions of the Fund for that year and the Investment Account total of \$53,101.15 is correct.

I have examined the securities composing the Investment Account as follows:

Arlington Five Cents Savings Bank - Savings Account #503398	8,000.00
Cambridge Savings Bank - Savings Account #601218	3,423.38
Cambridge Savings Bank - Term Deposit Certificate	8,000.00
Cambridgeport Savings Bank - Savings Account #235129	1,000.00
Cambridgeport Savings Bank - Term Deposit Certificate #840	4,000.00
Charlestown Savings Bank - Savings Account #1509265	1,282.77
Charlestown Savings Bank - Term Deposit Certificate #70501480	4,000.00

FIRE DEPARTMENT STATISTICAL REPORT

Deputy Chiefs are assigned to the following phases of Fire Prevention in addition to their regular firefighting duties.

Deputy Chief Francis M. Doherty - Mercantile Inspections.

Deputy Chief Irving L. Proctor - Quarterly Inspections of nursing homes and theatres.

DEPUTY CHIEF CHARLES J. DOHERTY - INSPECTION OF ROOMING HOUSES AND QUARTERLY TESTING OF FIRE ALARM BOXES.

DEPUTY CHIEF ROBERT E. KELLY - IN CHARGE OF COMMUNICATIONS, FIRE ALARM DISPATCHING AND OPERATION THEREOF.

HOSE TEST

THE ANNUAL TESTING OF FIRE HOSE WAS CARRIED OUT UNDER SUPERVISION OF THE TRAINING DIVISION AT SPY POND FIELD, EASTERN AVENUE PLAYGROUND AND HIGHLAND STATION. AUXILIARY FIRE PUMP WAS USED FOR TESTING PURPOSES. MEMBERS OF THE DEPARTMENT RECEIVED INSTRUCTION IN OPERATION OF SAID PUMP.

PUMP TESTS

The annual service test of all pumping apparatus was conducted under direction of D. Barter, Department Mechanic and the Training Officer during the month of September.

EDUCATIONAL

Four firefighters attended a four-day course at Harvard University on "Emergency Care and Transportation of the Sick and Injured" in June 1972 sponsored by American Academy Orthopaedic Surgeons.

FIRE SCIENCE PROGRAMS ARE IN PROGRESS AT LOCAL COMMUNITY COLLEGES DESIGNED TO PROVIDE ADVANCED FIRE TRAINING FOR FIRE SERVICE PERSONNEL. MANY MEMBERS OF THE FIRE DEPARTMENT ARE PRESENTLY ATTENDING THESE COURSES AND RECEIVING CREDIT HOURS LEADING TO AN ASSOCIATE DEGREE IN FIRE SCIENCE.

DETAILS

FIREFIGHTERS WERE DETAILED TO STAND-BY DUTY AS A PRECAU-TIONARY MEASURE TO GUARD AGAINST FIRE DURING WELDING OPERATIONS OR WHEN BLOW TORCHES WERE USED FOR REPAIRS IN SCHOOLS OR PUBLIC BUILDINGS AND DURING DEMOLITION OF BUILDINGS.

FIREFIGHTERS WERE DETAILED AT PARK CIRCLE STATION WHEN IN QUARTERS DURING SCHOOL HOURS FOR TRAFFIC DUTY IN THAT SECTION TO PROTECT SCHOOL CHILDREN.

THE HIGHLAND STATION WAS USED FOR REGISTRATION OF VOTERS AND VOTING PURPOSES BY THE TOWN. PARK CIRCLE STATION WAS USED BY A FEW CIVIC GROUPS AS A MEETING PLACE.

APPARATUS PARTICIPATED IN THE FOLLOWING PARADES:

Patriots' Day - Arlington and Lexington - April 17
Memorial Day - Arlington - May 29
Fire Prevention Day - Boston - October 7
Centennial - Somerville - October 22
Veterans' Day - Arlington - October 23

Operators Interviewed on Further Investigation		49 38 87

Action was taken against 96 of the operators involved in these accidents through the Courts and through the Registry of Motor Vehicles by the Arlington Police Department.

The four fatal accidents which resulted in the deaths of four persons during 1972 were as follows:

On April 7, 1972 at 7:26 PM., Nancy Kiniry, lh years of age, 19 Osborne Rd., Arrington, while a pedestrian on Rt. 2, opposite the A.D.Little Co., was struck by an automobile and was pronounced dead on arrival at the Symmes Mospital.

On April 9, 1972 at 6:40 PM., Gertrude Sherwood, 73 years of age, 11 Hillside Ed., Billerica, was a passenger in an automobile which struck a pole on Hystic St. and she received injuries which resulted in her death on April 12, 1972.

On November 18, 1972 at 7:30 FM., Agnes β . Ahern, 57 years of age, 25 Arrington St., Cambridge, was killed instantly when she slipped out of and under an automobile which she was operating herself on Surry Rd.

On December 23, 1972 at 12:55 AM.' Edwin A. Knell, Jr., 37 Corbett Ave., Dedham, was the operator of an automobile which ran into the rear of a tank truck on Rt. 2 at Pleasant St. He died an hour later at the Symmes Hospital as a result of injuries received in the accident.
